

C. Surveillance

The Commission notes that any Index Security approved for listing and trading would be subject to the Exchange's existing surveillance procedures governing equities, options, and exchange-traded funds, as well as procedures the Exchange represents it will develop to closely monitor activity in Index Securities and their underlying components. The Exchange has represented that its surveillance procedures will be adequate to properly monitor the trading of Index Securities listed pursuant to these proposed generic listing standards.

D. Information Memorandum

The Exchange has represented that it will distribute, as appropriate, an Information Memorandum to members describing the product, the structure of the product, and the corresponding risks of the Index Security. In addition, the Information Memorandum will set forth the Exchange's suitability requirements with respect to recommendations in transactions in Index Securities to customers and the prospectus delivery requirements. The Memorandum will also identify the Exchange's trading rules governing the Index Securities.

E. Firewall Procedures

The Exchange has further represented that, if the Underlying Index is maintained by a broker-dealer, such broker-dealer will establish a "firewall" around personnel responsible for the maintenance of the Underlying Index. As an added measure, a third-party who is not a broker-dealer will calculate the Underlying Index. In addition, the Exchange has stated that any advisory committee, supervisory board, or similar entity that advises an Index Licenser or Administrator or that makes decisions regarding the Underlying Index or portfolio composition, methodology, and related matters will be subject to procedures designed to prevent the use and dissemination of material, non-public information.

F. Acceleration

The Commission finds good cause for approving the proposed rule change before the 30th day after the date of publication of notice of filing thereof in the **Federal Register**. The Exchange requested accelerated approval of the proposal to enable the Exchange to immediately list and trade Index Securities. The Commission notes that the Exchange's proposed generic listing standards are substantially similar to previously approved listing standards

for Index Securities²⁶ and presently is not aware of any regulatory issue that should cause it to revisit that finding or would preclude the trading of such securities on the Exchange. Therefore, accelerating approval of this proposal should benefit investors by creating, without undue delay, additional competition in the market for Index Securities, subject to the standards and representations discussed herein. Therefore, the Commission finds good cause, consistent with Section 19(b)(2) of the Act,²⁷ to approve the proposed rule change on an accelerated basis.

V. Conclusion

It is therefore ordered, pursuant to Section 19(b)(2) of the Act, that the proposed rule change (SR-Phlx-2007-07), as amended, is hereby approved on an accelerated basis.²⁸

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.²⁹

Florence E. Harmon,

Deputy Secretary.
