Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: Board of Governors of the
Federal Reserve System

SUMMARY: Background.

On June 15, 1984, the Office of
Management and Budget (OMB)
delegated to the Board of Governors of
the Federal Reserve System (Board) its
approval authority under the Paperwork
Reduction Act, as per 5 CFR 1320.16, to
approve of and assign OMB control
numbers to collection of information
requests and requirements conducted or
sponsored by the Board under
conditions set forth in 5 CFR 1320
Appendix A.1. Board-approved
collections of information are
incorporated into the official OMB
inventory of currently approved
collections of information. Copies of the
OMB 83-I's supporting statements and
approved collection of information
instruments are placed into OMB's
public docket files. The Federal Reserve
may not conduct or sponsor, and the
respondent is not required to respond
to, an information collection that has
been extended, revised, or implemented
on or after October 1, 1995, unless it
displays a currently valid OMB control
number.

Request for Comment on Information Collection Proposals.

The following information
collections, which are being handled
under this delegated authority, have
received initial Board approval and are
hereby published for comment. At the
end of the comment period, the
proposed information collections, along
with an analysis of comments and
recommendations received, will be
submitted to the Board for final
approval under OMB delegated
authority. Comments are invited on the
following:

- a. whether the proposed collection of
information is necessary for the proper
performance of the Federal Reserve's
functions; including whether the
information has practical utility;
- b. the accuracy of the Federal
Reserve's estimate of the burden of the
proposed information collection,
including the validity of the
methodology and assumptions used;
- c. ways to enhance the quality, utility,
and clarity of the information to be
collected; and
- d. ways to minimize the burden of
information collection on respondents,
including through the use of automated
collection techniques or other forms of
information technology.
