Abstract: This information collection activity provides the EPA with notification of supplemental registration of distributors of pesticide products. EPA is responsible for the regulation of pesticides as mandated by the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended. Section 3(e) of FIFRA (see 7 U.S.C. 136a(e)), allows pesticide registrants to distribute or sell a registered pesticide product under a different name instead of or in addition to the name under the original registration. Such distribution and sale is termed "supplemental distribution" and the product is termed a "distributor product." EPA requires the pesticide registrant to submit a supplemental statement (EPA Form 8570-5, Notice of

Supplemental Distribution of a Registered Pesticide Product) when the registrant has entered into an agreement with a second company that will distribute the registrant's product under the second company's name and product name.

Burden statement: The total estimated annual respondent paperwork burden to comply with this information collection activity is 603 hours, or about 19 minutes per response. This estimate includes the time needed to review instructions; utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to respond to a collection of information; search existing data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Form Numbers: EPA Form 8750-5.

Respondents/affected entities: 1885.

Respondent's obligation to respond:

This information is required to be submitted pursuant to Section 3(e) of FIFRA, as amended. Regulations pertaining to supplemental distribution of pesticide products are contained in Title 40 CFR part 152.132.

Estimated number of respondents: 1885.

Frequency of response: On occasion.

Total estimated burden: 603 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$54,463 (per year), includes \$0.00 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is an overall increase of 216 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This increase is due to the increase in the number of applications the Agency expects to receive in the next 3 years. EPA had expected to receive about 1,451 notice submissions annually over the past three years. Based on the number of submissions received annually over that period, the Agency now expects to receive about 1,885 notice submissions annually over the next 3 years. This change is an adjustment to reflect the observed annual increase in submissions.

Director, Regulatory Support Division.
