

for the proper performance of the functions of the agency, including whether the information will have practical utility;

(ii) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) Enhance the quality, utility, and clarity of the information to be collected; and

(iv) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Burden Statement: Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Affected Entities: State, local, and tribal governments; universities, associations; and non-profit organizations.

Estimated Number of Respondents: 13,100.

Frequency of Response: 1 per 1 to 2 years.

Estimated Total Annual Hour Burden: 6,550 hours.

Estimated Total Annualized Cost Burden (non-labor costs): \$0.

Dated: September 18, 2002.

Karen D. Higginbotham,

Acting Director, Office of Civil Rights.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-7384-2]

Protection of Stratospheric Ozone: Notice of Revocation of Certification for Refrigerant Reclaimers, Under Section 608 of the Clean Air Act

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of revocation.

SUMMARY: In accordance with 40 CFR 82.154, no person may sell or offer for sale for use as a refrigerant any class I or class II ozone-depleting substance consisting wholly or in part of used refrigerant unless the substance has been reclaimed by a certified reclaimer. All persons reclaiming used refrigerant for sale to a new owner are required to certify to the EPA Administrator in accordance with 40 CFR 82.164.

Through this action, EPA is announcing the revocation of refrigerant reclaimer certifications of Atlantic Refrigerants of Beaver, PA; C.F.C. Reclamation and Recycling Service, Inc. of Abilene, TX; CFC Technologies, Inc. of Chester, CT; Full Circle Refrigerant Reclaim Services of Fort Worth, TX; Purification Technologies, Inc. of Chester, CT; and Trane Systems and Sales of Charlotte, NC. This action means that these companies are no longer authorized to reclaim and sell used refrigerant in accordance with the regulations promulgated at 40 CFR part 82, subpart F.

On March 6, 2002 the U.S. Department of Justice announced that the certification holder for CFC Technologies, Inc. pled guilty to conspiring to smuggle ozone-depleting substances into the United States by means of false statements to U.S. Customs and EPA officials, as well as defrauding the Internal Revenue Service in its attempts to collect excise and income taxes on proceeds from the sale of contraband ozone-depleting substances. EPA finds these violations grounds to revoke CFC Technologies, Inc.'s reclaimer certification. CFC Technologies, Inc. was issued a letter of revocation on March 13, 2002 that included an explanation of the basis for EPA's decision.

On May 31, 2001, C.F.C. Reclamation and Recycling Service, Inc. (currently doing business as H&L Enterprise) notified EPA that the company was being dissolved and would no longer be in the business of reclaiming used refrigerant for sale to a new owner. On September 9, 2002, EPA notified C.F.C. Reclamation and Recycling Service, Inc. of the Agency's intent to revoke

certification of the dissolved company. The correspondence also noted that EPA certification of reclaimers is not transferable, as noted in 40 CFR 82.164(f); therefore, any company assuming the ownership of C.F.C. Reclamation and Recycling Service, Inc. would be required to certify to EPA headquarters within 30 days of the change of ownership in order to sell used and reclaimed refrigerant to a new owner.

This action also acknowledges the voluntary withdrawal of previously certified reclaimers. Reclaimers requesting to be removed from the list of EPA-certified reclaimers include: Atlantic Refrigerants; Full Circle, Inc. and its previously certified subsidiaries; Purification Technologies, Inc.; and Trane Systems and Sales. On September 10, 2002, EPA notified these refrigerant reclaimers that the Agency had accepted their voluntary withdrawal, and that the Agency would officially revoke their reclaimer certification.

DATES: Atlantic Refrigerants of Beaver, PA; C.F.C. Reclamation and Recycling Service, Inc. of Abilene, TX; CFC Technologies, Inc. of Chester, CT; Full Circle Refrigerant Reclaim Services of Fort Worth, TX; Purification Technologies, Inc. of Chester, CT; and Trane Systems and Sales of Charlotte, NC had their EPA refrigerant reclaimer certifications revoked effective September 10, 2002.

FOR FURTHER INFORMATION CONTACT: Julius Banks; Stratospheric Program Implementation Branch, Global Programs Division, Office of Atmospheric Programs, Office of Air and Radiation; Mail Code: 6205J; 1200 Pennsylvania Ave., NW; Washington, DC 20460; (202) 564-9870; banks.julius@epa.gov. EPA publishes information concerning certified refrigerant reclaimers online at <http://www.epa.gov/ozone/title6/608/reclamation/reclist.html>. The Stratospheric Ozone Information Hotline can also be contacted for further information at (800) 296-1996.

Dated: September 13, 2002.

Brian McLean,

Director, Office Of Atmospheric Programs.
