

to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information. Any recommendations from the drinking water community and the general public on this issue will be given consideration by the Agency.

Dated: April 25, 2001.

Phil Oshida,

Acting Director, Office of Ground Water and Drinking Water.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-6972-7]

Agency Information Collection Activities: Submission for OMB Review; Comment Request; Regulations for a Voluntary Emissions Standards Program Applicable to Manufacturers of Light-Duty Vehicles and Trucks Beginning in Model Year 1997

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that the following Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval: Regulations for a Voluntary Emissions Standards Program Applicable to Manufacturers of Light-Duty Vehicles and Trucks Beginning in Model Year 1997, OMB Control Number 2060-0345, expiration date 04/30/01. The ICR describes the nature of the information collection and its expected burden and cost; where appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before June 1, 2001.

ADDRESSES: Send comments, referencing EPA ICR No. 1761.03 and OMB Control No. 2060-0345, to the following addresses: Sandy Farmer, U.S. Environmental Protection Agency, Collection Strategies Division (Mail Code 2822), 1200 Pennsylvania Avenue, NW., Washington, DC 20460-0001; and to the Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Attention: Desk Officer for EPA, 725 17th Street, NW., Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: For a copy of the ICR contact Sandy Farmer at EPA by phone at (202) 260-2740, by E-mail at

Farmer,sandy@epamail.epa.gov, or download off the Internet at *http://www.epa.gov/icr* and refer to EPA ICR No. 1761.03. For technical questions about the ICR contact: Chestine Payton, Office of Transportation and Air Quality, Certification and Compliance Division, (202) 564-9328, fax (202) 565-2057. E-mail address: *payton,chestine@epa.gov*.

SUPPLEMENTARY INFORMATION:

Regulations for a Voluntary Emissions Standards Program Applicable to Manufacturers of Light-Duty Vehicles and Trucks Beginning in Model Year 1997 (OMB #2060-0345, approved through 04/30/01). This is a request for extension of a currently approved collection.

Abstract: The information collection is conducted to support averaging, banking, and trading provisions included in the National Low Emission Vehicle (LEV) program. These averaging, banking, and trading provisions give the automobile manufacturers a measure of flexibility in meeting the fleet average Non-methane organic gas (NMOG) standards and the five-percent cap on Tier 1 vehicles and transitional low emission vehicles (TLEVs) in the ozone transport region (OTR). EPA will use the reported data to calculate credits and debits and otherwise ensure compliance with the applicable production levels and emissions standards. When a manufacturer opted into the Voluntary National LEV program, reporting will be mandatory.

Manufacturers submit information regarding the annual sales, calculation, generation, and usage of emission credits in an annual report. In addition, upon transferring credits to another manufacturer, the manufacturer submits this information along with their annual report. This information will be submitted to EPA in annual reports and will involve approximately 18

respondents at a total annual cost of about \$580,212.

EPA currently has in place an Information Collection Request (ICR) and clearance for annual sales/production reporting for light-duty vehicles and trucks. This ICR reflects additional requirements to collate the annual sales/production data and implement the credit calculation program.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15. The **Federal Register** document required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on February 21, 2001 (66 FR 11020); no comments were received.

Burden Statement: The annual public reporting and record keeping burden for this collection of information is estimated to average 241 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purpose of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Manufacturers of light-duty vehicles and light-duty trucks.

Estimated Number of Respondents: 18.

Frequency of Response: Annually.
Estimated Total Annual Hour Burden Per Respondent: 4,338.

Estimated Total Annualized Capital, O&M Cost Burden: 0.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the following address. Please refer to EPA ICR No. 1761.03 and OMB Control No. 2060-0345 in any correspondence.

Dated: April 20, 2001.

Oscar Morales,

Director, Collection Strategies Division.

Agency Information Collection Activities: Submission for OMB Review; Comment Request; NSPS New Source Performance Standards (NSPS) for Municipal Incinerators

AGENCY: Environmental Protection
Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that the following Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval: NSPS Subpart E: New Source Performance Standards (NSPS) for Incinerators. OMB Control Number 2060-0040, expiration date April 30, 2001. The ICR describes the nature of the information collection and its expected burden and cost; where appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before June 1, 2001.

ADDRESSES: Send comments, referencing EPA ICR No. 1058.07 and OMB Control No. 2060-0040, to the following addresses: Sandy Farmer, U.S. Environmental Protection Agency, Collection Strategies Division (Mail Code 2822), 1200 Pennsylvania Avenue, NW., Washington, DC 20460-0001; and to Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Attention: Desk Officer for EPA, 725 17th Street, NW., Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: For a copy of the ICR contact Sandy Farmer at EPA by phone at (202) 260-2740, by E-mail at Farmer.sandy@epamail.epa.gov, or download off the Internet at <http://www.epa.gov/icr> and refer to EPA ICR No. 1058.07 For technical questions about the ICR contact Ann Kline (202-564-0119).

SUPPLEMENTARY INFORMATION:

Title: NSPS Subpart E: New Source Performance Standards for Incinerators, OMB Control No. 2060-0040; EPA ICR No. 1058.07, expiring April 30, 2001.

This is a request for extension of a currently approved collection.

Abstract: The New Source Performance Standards (NSPS) for Incinerators were promulgated on December 23, 1971. These standards apply to incinerators that charge more than 45 megagrams per day (50 tons per day) of solid waste for the purpose of reducing the volume of the waste after promulgation of NSPS subpart E in 1971. Solid waste is defined as refuse that is more than 50 percent municipal type waste. This information is being collected to assure compliance with 40 CFR part 60, subpart E.

Owners or operators of the affected facilities described must make one-time-only notifications including: (1) Notification of any physical or operational change to an existing facility which may increase the regulated pollutant emission rate; (2) notification of the initial performance test, including information necessary to determine the conditions of the performance test; and (3) performance test measurements and results. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. Monitoring requirements specific to NSPS Subpart E provide information on daily charging rates and hours of operation. Any owner or operator subject to the provisions of this part shall maintain a file of these measurements, and retain the file for at least two years following the date of such measurements, maintenance reports, and records.

The control of emissions of particulate matter from municipal incinerators requires not only the installation of properly designed equipment, but also the operation and maintenance of that equipment. Certain records and reports are necessary to enable the Administrator to: (1) Identify existing, new, and reconstructed sources subject to the standards; (2) determine a source's initial capability to comply with the emission standard; and (3) ensure that the standards are being achieved. These records and reports are required under subpart E and the General Provisions of 40 CFR part 60. Owners or operators of affected facilities must provide certain notifications and reports on startup and initial performance. Owners or operators of affected facilities also must record certain operation and maintenance and retain files of this information for at least two years following the date of such measurements, maintenance reports, and records.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless a currently valid OMB control number is displayed. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15. The **Federal Register** document required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on August 17, 2000 (65 FR 50196); no comments were received.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 89 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Owners/Operators of Municipal Incinerators.

Estimated Number of Respondents: 96.

Frequency of Response: Daily, Monthly, and Semi-annually.

Estimated Total Annual Hour Burden: 8,544 hours.

Estimated Total Annualized Capital, O&M Cost Burden: \$240,000.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the addresses listed above. Please refer to EPA ICR No. 1058.07 and OMB Control No. 2060-0040 in any correspondence.

Dated: April 24, 2001.

Oscar Morales,

Director, Collection Strategies Division.
