

both cut (or knit-to-shape) and sewn or otherwise assembled in one or more CBTPA beneficiary countries from fabric or yarn that is not formed in the United States, if it has been determined that such fabric or yarn cannot be supplied by the domestic industry in commercial quantities in a timely manner. In Executive Order No. 13191, the President delegated to CITA the authority to determine whether yarns or fabrics cannot be supplied by the domestic industry in commercial quantities in a timely manner under the CBTPA and directed CITA to establish procedures to ensure appropriate public participation in any such determination. On March 6, 2001, CITA published procedures that it will follow in considering requests. (66 FR 13502).

On August 31, 2004, the Chairman of CITA received a petition on behalf of Jaclyn, Inc. of New York, alleging that certain circular single knit jersey fabric, of the specifications detailed below, classified HTSUS subheading 6006.32.00.80, cannot be supplied by the domestic industry in commercial quantities in a timely manner and requesting quota- and duty-free treatment under the CBTPA for certain apparel articles that are cut and sewn in one or more CBTPA beneficiary countries from such fabric.

Specifications:

Fabric Description:	single knit jersey, jacquard geometric rib stitch
Petitioner Style No:	4934
HTS Subheading:	6006.32.00.80
Fiber Content:	64% polyester staple/34% cotton/2% spandex
Weight:	6.165 sq. meters/kg
Yarn Size:	54.14 metric (32/1 English), spun, filament core
Gauge:	24
Finish:	(Piece) dyed
Stretch Characteristics:	45% from relaxed state; 95% recovery to relaxed state

The petitioner emphasizes that the fabric must be knit on a jacquard machine in order to provide the geometric pattern and puckered effect apparent in the fabric. Also, the petitioner states that the fabric's stretch properties set forth are necessary.

CITA is soliciting public comments regarding this request, particularly with respect to whether this fabric can be supplied by the domestic industry in commercial quantities in a timely manner. Also relevant is whether other fabrics that are supplied by the domestic industry in commercial quantities in a timely manner are substitutable for the fabric for purposes of the intended use. Comments must be received no later than September 23, 2004. Interested persons are invited to submit six copies

of such comments or information to the Chairman, Committee for the Implementation of Textile Agreements, room 3100, U.S. Department of Commerce, 14th and Constitution Avenue, N.W., Washington, DC 20230.

If a comment alleges that this fabric can be supplied by the domestic industry in commercial quantities in a timely manner, CITA will closely review any supporting documentation, such as a signed statement by a manufacturer of the fabric stating that it produces the fabric that is the subject of the request, including the quantities that can be supplied and the time necessary to fill an order, as well as any relevant information regarding past production.

CITA will protect any business confidential information that is marked "business confidential" from disclosure to the full extent permitted by law. CITA will make available to the public non-confidential versions of the request and non-confidential versions of any public comments received with respect to a request in room 3100 in the Herbert Hoover Building, 14th and Constitution Avenue, N.W., Washington, DC 20230. Persons submitting comments on a request are encouraged to include a non-confidential version and a non-confidential summary.
