

*de minimis* (i.e., at or above 0.5 percent), the Department will issue appraisal instructions directly to CBP to assess antidumping duties on appropriate entries by applying the assessment rate to the entered value of the merchandise. For assessment purposes, we calculated importer-specific assessment rates for the subject merchandise by aggregating the dumping margins for all U.S. sales to each importer and dividing the amount by the total entered value of the sales to that importer. Where appropriate, to calculate the entered value, we subtracted international movement expenses (e.g., international freight) from the gross sales value.

The Department clarified its “automatic assessment” regulation on May 6, 2003 (68 FR 23954). This clarification will apply to entries of subject merchandise during the POR produced by companies included in these preliminary results of review for which the reviewed companies did not know their merchandise was destined for the United States. In such instances, we will instruct CBP to liquidate unreviewed entries at the all-others rate if there is no rate for the intermediate company(ies) involved in the transaction. For a full discussion of this clarification, see *Antidumping and Countervailing Duty Proceedings: Assessment of Antidumping Duties*, 68 FR 23954 (May 6, 2003).

#### Cash Deposit Requirements

To calculate the cash deposit rate for Granoro and Garofalo, we divided its total dumping margin by the total net value of its sales during the review period.

The following deposit rates will be effective upon publication of the final results of this administrative review for all shipments of pasta from Italy entered, or withdrawn from warehouse, for consumption on or after the publication date, as provided by section 751(a)(2)(C) of the Act: (1) The cash deposit rate for companies subject to this review will be the rate established in the final results of this review, except if the rate is less than 0.5 percent and, therefore, *de minimis*, no cash deposit will be required; (2) for previously reviewed or investigated companies not listed above, the cash deposit rate will continue to be the company-specific rate published for the most recent final results for a review in which that manufacturer or exporter participated; (3) if the exporter is not a firm covered in this review, a prior review, or the original less-than-fair-value (“LTFV”) investigation, but the manufacturer is, the cash deposit rate will be the rate established for the most recent final

results for the manufacturer of the merchandise; and (4) if neither the exporter nor the manufacturer is a firm covered in this or any previous review conducted by the Department, the cash deposit rate will be 15.45 percent, the all-others rate established in the LTFV investigation. See *Implementation of the Findings of the WTO Panel in US—Zeroing (EC): Notice of Determination Under Section 129 of the Uruguay Round Agreements Act and Revocations and Partial Revocations of Certain Antidumping Duty Orders*, 72 FR 25261 (May 4, 2007). These cash deposit requirements, when imposed, shall remain in effect until further notice.

#### Notification to Importers

This notice serves as a preliminary reminder to importers of their responsibility under 19 CFR 351.402(f) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary’s presumption that reimbursement of antidumping duties occurred and increase the subsequent assessment of the antidumping duties by the amount of antidumping duties reimbursed.

These preliminary results of administrative review are issued and published in accordance with sections 751(a)(1) and 777(i)(1) of the Act and 19 CFR 351.221(b)(4).

Dated: August 9, 2010.

## **COUNCIL ON ENVIRONMENTAL QUALITY**

### **Draft Guidance, “Federal Greenhouse Gas Accounting and Reporting”**

**AGENCY:** Council on Environmental Quality.

**ACTION:** Notice: Extension of comment period.

**SUMMARY:** This notice extends the comment period on draft guidance published in the **Federal Register** on July 16, 2010. The original date that the comment period would end was August 16, 2010. That date will now be extended until September 1, 2010.

On October 5, 2009, President Obama signed Executive Order (E.O.) 13514—Federal Leadership in Environmental, Energy, and Economic Performance (74 FR 52117) in order to establish an integrated strategy toward sustainability in the Federal Government and to make reduction of greenhouse gas (GHG) emissions a priority for Federal agencies. Among other provisions, E.O. 13514 requires agencies to measure, report, and reduce their GHG emissions.

Section 9(a) of E.O. 13514 directed the Department of Energy’s (DOE’s) Federal Energy Management Program (FEMP), in coordination with the Environmental Protection Agency (EPA), Department of

Defense (DoD), General Services Administration (GSA), Department of the Interior (DOI), Department of Commerce (DOC), and other agencies as appropriate, to develop recommended Federal GHG reporting and accounting procedures. On April 5, 2010, DOE–FEMP submitted the final recommendations on Federal GHG reporting and accounting procedures to the Chair, Council on Environmental Quality (CEQ).

Section 5(a) of E.O. 13514 directed that the Chair of CEQ issue guidance for Federal GHG accounting and reporting. Based on the final recommendations, CEQ has prepared a draft guidance document. CEQ is committed to open government principles and leading by example to ensure that the Federal Government is transparent in its processes for accounting and reporting of Federal GHG emissions.

The Federal Government seeks to continually improve both the quality of data and methods necessary for calculating GHG emissions. Over time, additional requirements, methodologies and procedures will be included in revisions to this document and supporting documents to improve the Federal Government’s overall ability to accurately account for and report GHG emissions. In particular, while a detailed approach to accepted and peer-reviewed life cycle methodologies is beyond the scope of the current version of this guidance document, the Federal Government is interested in including such approaches in future versions, and may request comment on inclusion of life cycle methodologies in future versions of this Guidance document.

CEQ provides this draft guidance for public review and comment to ensure accessibility of Federal accounting and reporting requirements and to enhance the quality of public involvement in governmental decisions relating to the environment.

**DATES:** CEQ is extending the written comments period. Comments will be accepted through September 1, 2010.

**ADDRESSES:** The Draft Guidance, “Federal Greenhouse Gas Accounting and Reporting” documents are available at: <http://www.whitehouse.gov/ceq/sustainability>. Comments on the Draft Guidance, “Federal Greenhouse Gas Accounting and Reporting,” should be submitted electronically to [GHG.guidance@ceq.eop.gov](mailto:GHG.guidance@ceq.eop.gov), or in writing to The Council on Environmental Quality, Attn: Leslie Gillespie-Marthaler, 722 Jackson Place, NW., Washington, DC 20503.

**FOR FURTHER INFORMATION CONTACT:** Leslie Gillespie-Marthaler, Senior

Program Manager, Office of the Federal Environmental Executive (OFEE) at (202) 456-5117.

**SUPPLEMENTARY INFORMATION:** The Chair, Council on Environmental Quality is required, under Section 5(a) of E.O. 13514, to issue guidance for Federal agency greenhouse gas accounting and reporting. Federal agencies are required, under Section 2(c) of E.O. 13514, to establish and report to the CEQ Chair and OMB Director a comprehensive inventory of absolute GHG emissions, including scope 1, scope 2, and specified scope 3 emissions for fiscal year 2010, and thereafter, annually.

The Draft Guidance, “Federal Greenhouse Gas Accounting and Reporting” establishes government-wide requirements for Federal agencies in calculating and reporting GHG emissions associated with agency operations. The Draft Guidance is accompanied by a separate Draft Technical Support Document for Federal GHG Accounting and Reporting (TSD), which provides detailed information on Federal inventory reporting requirements and calculation methodologies. Specifically, CEQ is interested in comments on section/chapter 4 regarding renewable energy.

Public comments are requested on or before September 1, 2010.

Dated: August 6, 2010.
