

Likewise, ON and Fairchild view each other the same way. By eliminating the competition between ON and Fairchild, the proposed Acquisition likely would lead to unilateral effects in the form of higher prices and reduced innovation.

5. Entry

Entry into the Ignition IGBT market is not likely to deter or counteract any anti-competitive effects of the proposed Acquisition. Given the niche nature of the Ignition IGBT market, declining demand, and the lengthy time it would take to qualify new products with customers, entry is unlikely and would not be timely. Market participants confirmed that it would take at least three to four years before a new entrant could become a viable supplier. Existing IGBT manufacturers, moreover, are not rapid entrants. The process of designing an IGBT for ignition systems and qualifying it with customers would take years.

6. The Proposed Consent Agreement

The Consent Agreement restores the competition lost from the proposed Acquisition by requiring ON to divest its Ignition IGBT business to Littelfuse, a publicly traded company based in Chicago, Illinois. The proposed divestiture includes everything needed for Littelfuse to compete effectively in the worldwide market for Ignition IGBTs.

Under the Order, ON is required to divest its Ignition IGBT business to Littelfuse no later than 10 days from the close of the Acquisition. The divestiture package consists of the following assets: Design files, patents and technologies for Ignition IGBTs; licenses to manufacturing process technology; a process to facilitate the transfer of customer and distributor relationships with respect to Ignition IGBTs; technology transfers and transitional services including manufacturing support; and, if Littelfuse requests, secondment of ON personnel to support the transfer from ON to Littelfuse of the technology and know-how for production of Ignition IGBTs. No physical assets are being divested because a third party will manufacture Ignition IGBTs for Littelfuse.

The Order requires that, at the request of Littelfuse and in a manner approved by the Commission, ON must provide transitional manufacturing for a period of up to three years with a possible option to extend the period by up to two years. Similarly, the Order also requires ON to provide support services such as logistical and administrative support for up to three years with a possible option to extend the period for up to two years.

In addition, the Order includes other standard terms designed to ensure the viability of the divested business.

A Monitor will monitor ON's compliance with the obligations set forth in the Order. If ON does not fully comply with the divestiture and requirements of the Order, the Commission may appoint a Divestiture Trustee to divest the Ignition IGBT business and perform ON's other obligations consistent with the Order.

The divestiture of ON's Ignition IGBT business to Littelfuse will preserve competition that would otherwise have been lost as a result of the Acquisition. Potential customers have confirmed that the divested assets include everything necessary to compete effectively as a viable business. Similarly, potential customers have confirmed that Littelfuse would be a competitive option as a supplier.

7. Opportunity for Public Comment

The purpose of this analysis is to facilitate public comment on the Consent Agreement to aid the Commission in determining whether it should make the Consent Agreement final. This analysis is not an official interpretation of the proposed Consent Agreement and does not modify its terms in any way.

By direction of the Commission.

Donald S. Clark,
Secretary.

Agency Forms Undergoing Paperwork Reduction Act Review

The Centers for Disease Control and Prevention (CDC) has submitted the following information collection request to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995. The notice for the proposed information collection is published to obtain comments from the public and affected agencies.

Written comments and suggestions from the public and affected agencies concerning the proposed collection of information are encouraged. Your comments should address any of the following: (a) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) Evaluate the accuracy of the agencies estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) Enhance the quality, utility, and clarity of the information to be collected; (d) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of

responses; and (e) Assess information collection costs.

To request additional information on the proposed project or to obtain a copy of the information collection plan and instruments, call (404) 639-7570 or send an email to omb@cdc.gov. Written comments and/or suggestions regarding the items contained in this notice should be directed to the Attention: CDC Desk Officer, Office of Management and Budget, Washington, DC 20503 or by fax to (202) 395-5806. Written comments should be received within 30 days of this notice.

Proposed Project

Older Adult Safe Mobility Assessment Tool (OMB Control No. 0920-1005, Expiration Date: 10/31/2016)—Extension—National Center for Injury Prevention and Control (NCIPC), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

The Centers for Disease Control and Prevention (CDC) is seeking OMB approval to extend the previously approved information collection project under OMB Control Number 0920-1005 to evaluate the Mobility Planning Tool (MPT).

Within the Injury Center, preventing falls and ensuring safe transportation for older adults are strategic priorities. The purposes of this information collection is to evaluate whether the Mobility Planning Tool is effective for promoting readiness to adopt mobility-protective behaviors in older adults and to assess potential strategies for dissemination of the MPT.

The study population is community-living older adults ages 60-74 with no known mobility limitations. Effectiveness of the tool will be assessed using two different comparisons: (1) A comparison between individuals' attitudes and behaviors related to protecting their mobility as they age before and after receiving the MPT in the group that received the MPT, and (2) a comparison of both mobility-related attitudes and behaviors and changes between the group that received the MPT and the group that did not receive the MPT.

Study findings will be used to identify areas of the MPT that may need revision before it is disseminated publicly.

There are no costs to respondents other than their time. The total estimated annual burden hours are 367.
