

SUPPLEMENTARY INFORMATION: The IPBC will be used to train and test infantry platoons and other units on the skills necessary to conduct collective (group) tactical movement techniques, and to detect, identify, engage, and defeat stationary and moving infantry and armor targets in a tactical array. Soldiers will engage targets with small arms, machine guns, and other weapon systems as part of live-fire exercises. This includes air-ground integration where Soldiers maneuvering on the IPBC can coordinate air support. In addition to live-fire, the range would also be used for training with sub-caliber and/or laser training devices. This type of training is mission essential for Soldiers to be prepared to encounter threats during combat operations overseas.

The Army identified and analyzed environmental and socioeconomic impacts associated with the proposed IPBC in the Final EIS. The major potential environmental impacts are to air quality, threatened and endangered species, cultural sites, encountering munitions and explosives of concern, and igniting wildfires. Significant impacts could occur to cultural resources. Prior to making its decision, the Army considered comments received during the EIS scoping and comment process, and the 30-day waiting period after the Final EIS. The Army's Record of Decision includes the final measures the Army will adopt to avoid, minimize, and mitigate impacts to identified cultural resources.

Notice of Availability of the Final Environmental Impact Statement for the Tarmac King Road Limestone Mine Proposed in Levy County, Florida

AGENCY: U.S. Army Corps of Engineers, DoD.

ACTION: Notice of availability.

SUMMARY: The U.S. Army Corps of Engineers (USACE) is issuing this notice to advise the public that a Final Environmental Impact Statement (Final EIS) has been completed and is available for review and comment.

DATES: In accordance with the National Environmental Policy Act (NEPA), we have filed the Final EIS with the U.S. Environmental Protection Agency (EPA) for publication of their notice of availability in the **Federal Register**. The EPA notice on August 16, 2013 officially starts the 30-day review period for this document. Comments on the Final EIS must be submitted to the address below under Further Contact Information and must be received no later than 5 p.m. Central Standard Time, September 15, 2013.

Scoping: Scoping Meetings were held in Inglis, FL and Chiefland, FL on March 26th and 27th, 2008 respectively, to gather information for the preparation of the EIS. Public notices were posted in Levy, Citrus, Alachua and Pinellas County newspapers, and emailed and air-mailed to current stakeholder lists with notification of the public meetings and requesting input and comments on issues that should be addressed in the EIS.

A public meeting for the Draft EIS was held on Thursday, May 31, 2012 at the
