

recordings via digital audio transmission, and established a new statutory license under section 112 of the Copyright Act for the making of ephemeral copies of sound recordings. The DMCA also directed the Copyright Office to establish regulations that require digital audio services eligible for the amended section 114 license and the new section 112 license to give copyright owners of sound recordings reasonable notice of the use of their works and to maintain records of use and make them available to copyright owners. See 17 U.S.C. 112(e)(4) and 114(f)(4)(A). On February 7, 2002, the Office published a Notice in the **Federal Register** proposing such regulations and sought public comment. Following publication of this notice, the Office extended the original comment period to April 5, 2002, and the reply period to April 26, 2002.

### Roundtable Discussion

The Copyright Office has reviewed the comments received to this point and is aware that the proposed notice and recordkeeping provisions are contentious. It is our desire to adopt regulations that provide sufficient notification and information to copyright owners of the use of their sound recordings yet are not unduly burdensome on those making use of the statutory licenses. To promote the adoption of such regulations, the Office is holding a public roundtable discussion on May 10, 2002, to discuss the proposed regulations and the comments we have received. Those interested in participating in the roundtable must notify the Office in a written request sent by fax or e-mail to the addresses given above and this request must contain the following elements: (1) The name of the person desiring to participate, (2) the organization or organizations represented by that person, if any; (3) contact information (address, telephone, fax, and e-mail); and (4) information on the specific focus or intent of the participant (or his or her organization) and any questions or issues the participant would like to raise. Submission of such requests by regular mail will not be effective. While registration in a public forum would not otherwise be required, seating is limited and will be available first to persons who have submitted requests to participate or attend. Remaining seats will be available on a first-come, first-served basis. As discussed earlier, the Office is in the middle of an ongoing rulemaking proceeding and has already received initial comments; it will receive reply comments on April 26,

2002. No written comment is required as a prerequisite to participation. What is required is a request for participation that contains identified information. Persons desiring merely to attend but not actively participate in the discussions should so indicate in the request and need not give any information on questions or issues.

The Copyright Office encourages participation by all those affected by the proposed regulations. The Office is especially interested in the views of small businesses engaged in webcasting as well as individuals and small businesses who are copyright owners of sound recordings, and in details relating to the benefits, costs and burdens associated with the published notice and recordkeeping proposal and of alternatives to that proposal. The Office encourages those who would like to participate to review the comments already submitted in this proceeding. Those comments may be found on our website at <http://www.loc.gov/copyright/carp/114/comments.html>. The Office also encourages those with common interests and views to select one spokesperson.

### 40 CFR PART 52

[IL207-1b; FRL-7160-5]

### Approval and Promulgation of Implementation Plans; Illinois

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Proposed rule.

**SUMMARY:** EPA proposes to approve new emissions tests averaging provisions for the state of Illinois. The Illinois Environmental Protection Agency (IEPA) submitted the provisions on October 9, 2001 as a requested revision to the Illinois State Implementation Plan (SIP). The new provisions provide that when conducting a compliance test, a source is considered in compliance with the relevant standard if the average of 3 emissions test runs is at or below the level specified in the emissions standard.

**DATES:** EPA must receive written comments on this proposed rule by May 15, 2002.

**ADDRESSES:** You should mail written comments to: J. Elmer Bortzer, Chief, Regulation Development Section, Air Programs Branch (AR-18J), U.S. Environmental Protection Agency, Region 5, 77 West Jackson Boulevard, Chicago, Illinois 60604.

You may inspect copies of the State submittal and EPA's analysis of it at:

### I. What Action Is EPA Taking Today?

We are proposing to approve new emissions tests averaging provisions for the state of Illinois. The IEPA submitted the provisions on October 9, 2001 as a requested revision to the Illinois SIP. The new provisions provide that when conducting a compliance test, a source is considered in compliance with the relevant standard if the average of 3 emissions test runs is at or below the level specified in the emissions standard.

The emissions tests averaging provisions only apply to units that produce a consistent pattern of emissions. The emissions tests averaging provisions may not be used for determining the compliance status of emissions units that are subject to Sections 111 (Standards of Performance for New Stationary Sources) and 112 (Hazardous Air Pollutants) of the Clean Air Act or for units that are being tested for emissions generated by hazardous waste or municipal waste.

### II. Where Can I Find More Information About This Proposal and the Corresponding Direct Final Rule?

For additional information see the direct final rule published in the rules section of this **Federal Register**.

### Acephate, Amitraz, Carbaryl, Chlorpyrifos, Cryolite, et al.; Proposed Revocation of Tolerances

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Proposed rule.

**SUMMARY:** This document proposes to revoke certain tolerances for residues of the pesticides acephate, amitraz, carbaryl, chlorpyrifos, cryolite, disulfoton, ethalfluralin, ethion, ethoprop, fenthion, fluvalinate, methamidophos, metribuzin, oxamyl, phorate, phosalone, phosmet, pirimiphos-methyl, profenofos, propiconazole, tetrachlorvinphos, thiram, and tribufos because these specific tolerances are either no longer needed or are associated with food uses that are no longer current or registered in the United States. The regulatory actions proposed in this document are part of the Agency's reregistration program under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), and the tolerance reassessment requirements of the Federal Food, Drug, and Cosmetic Act (FFDCA) section 408(q), as amended by the Food Quality Protection Act (FQPA) of 1996. By law, EPA is required by August 2002 to reassess 66% of the tolerances in existence on August 2, 1996, or about 6,400 tolerances. The regulatory actions in this document pertain to the proposed revocation of 153 tolerances. Because seven tolerances were previously reassessed, 146 tolerances would be counted as reassessed. Also, EPA is announcing that six goat and sheep tolerances at 0 ppm for amitraz are considered to be reassessed. Therefore, a total of 152 tolerance reassessments would be counted among tolerance/exemption reassessments made toward the August 2002 review deadline.

**DATES:** Comments, identified by docket control number OPP-2002-0019, must be received on or before June 14, 2002.

**ADDRESSES:** Comments may be submitted by mail, electronically, or in

person. Please follow the detailed instructions for each method as provided in Unit I. of the **SUPPLEMENTARY INFORMATION.** To ensure proper receipt by EPA, it is imperative that you identify docket control number OPP-2002-0019 in the subject line on the first page of your response.
