#### SUPPLEMENTARY INFORMATION:

**Authority:** Section 204 of the Agriculture Act of 1956, as amended; Executive Order 11651, as amended.

#### BACKGROUND:

The Report of the Working Party on the Accession of China to the World Trade Organization (Accession Agreement) provides that, if a WTO Member, such as the United States, believes that imports of Chinese origin textile and apparel products are, "due to market disruption, threatening to impede the orderly development of trade in these products", it may request consultations with China with a view to easing or avoiding the disruption. Pursuant to this provision, if the United States requests consultations with China, it must, in the context of this request, provide China with a detailed factual statement showing (1) the existence of market disruption; and (2) the role of products of Chinese origin in that disruption. Beginning on the date that it receives such a request, China must restrict its shipments to the United States to a level no greater than 7.5 percent (6 percent for wool product categories) above the amount entered during the first 12 months of the most recent 14 months preceding the request.
