

dune and marsh habitat acreage compared to the other habitat improvement alternatives, is the most cost-effective, and has the highest likelihood of success. The plan also analyzes implementation of two fish and water column invertebrates (FWCI) restoration alternatives for the Chandeleur Islands. The preferred FWCI restoration alternative involves education, engagement, and communication with stakeholders to restore FWCI from human-use related impacts from fishing, boating, and ecotourism. The non-preferred FWCI restoration alternative would monitor fisheries populations through telemetry.

The total estimated cost to implement the two preferred alternatives is approximately \$360,000,000, of which approximately \$247,000,000 is proposed to be funded from the following DWH NRDA restoration type allocations:

- *Louisiana TIG Wetlands Coastal Nearshore Habitats*: \$150,000,000;
- *Louisiana TIG Habitat Projects on Federally Managed Lands*: \$25,693,273;
- *Louisiana TIG Submerged Aquatic Vegetation*: \$22,000,000;
- *Louisiana TIG Birds*: \$30,000,000;
- *Louisiana TIG Sea Turtles*: \$4,000,000;
- *Open Ocean TIG Birds*: \$5,000,000; and
- *Open Ocean TIG Fish and Water Column Invertebrates*: up to \$10,000,000.

#### Administrative Record

The documents comprising the administrative record for the Draft RP/EA can be viewed electronically at <https://www.doi.gov/deepwaterhorizon/adminrecord> under folder 6.5.5.2.

#### Authority

The authority for this action is the Oil Pollution Act of 1990 (33 U.S.C. 2701 *et seq.*), its implementing Natural Resource Damage Assessment regulations found at 15 CFR part 990, and the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*).

## DEPARTMENT OF THE INTERIOR

### Bureau of Land Management

[PO#4820000251; Order #02412-014-004-047181.0]

#### Final Environmental Impact Statement for the Proposed Spring Valley Mine Project, Nevada

**AGENCY:** Bureau of Land Management, Interior.

**ACTION:** Notice of availability.

**SUMMARY:** In compliance with the National Environmental Policy Act of 1969, as amended (NEPA), and the Federal Land Policy and Management Act of 1976, as amended (FLPMA), the Bureau of Land Management (BLM) announces the availability of the final environmental impact statement (EIS) for the proposed Spring Valley Mine Project.

**DATES:** The BLM will not issue a decision on the proposal until a minimum of 30 days after the date that the Environmental Protection Agency (EPA) publishes its Notice of Availability (NOA) in the **Federal Register**. The EPA usually publishes its NOAs on Fridays.

**ADDRESSES:** The Final EIS and documents pertinent to this proposal are available for review on the BLM ePlanning project website at <https://eplanning.blm.gov/eplanning-ui/project/2030469/510>.

#### FOR FURTHER INFORMATION CONTACT:

Robert Sevon, Project Manager, telephone (775) 623-1502; address 5100 East Winnemucca Boulevard, Winnemucca, Nevada 89445; email [rsevon@blm.gov](mailto:rsevon@blm.gov). Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services for contacting Mr. Sevon. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

#### SUPPLEMENTARY INFORMATION:

##### Purpose and Need for Action

The BLM's purpose for the Federal action is to respond to Solidus Resources, LLC's project proposal, as described in the Plan of Operations and the applicable rights-of-way (ROWs), and to analyze the potential environmental effects associated with the Proposed Action and alternatives to the Proposed Action, consider

reasonable alternatives, and consider mitigation of environmental impacts.

The BLM's need for the Federal action is established by the BLM's responsibilities under the surface management regulations at 43 CFR part 3809 and under section 302(b) of the FLPMA, including Title V, regarding ROWs (43 CFR part 2800), to respond to a request for a surface use authorization under a Plan of Operations and two associated Plans of Development for ROWs, and to take any action necessary to prevent unnecessary or undue degradation of public lands as a result of the actions taken to prospect, explore, assess, develop, and process mineral resources that are subject to disposal under the mining laws on public lands.

#### Proposed Action and Alternatives

The Proposed Action and No Action alternative were carried forward. Several alternatives were identified based on scoping issues and suggestions. Alternatives included different mine design and layout, renewable energy, water management and alternative access. Each alternative was considered and dismissed from full analysis based on feasibility and environmental concerns. Alternatives reviewed and dismissed from full analysis are outlined in the Draft and Final EIS.

The Proposed Action includes the construction, operation, reclamation, and closure of the Spring Valley Mine in Pershing County, Nevada, and would include:

- One open pit and associated haul roads;
- Three waste rock disposal facilities;
- A heap leach pad, a process solution pond, and processing facilities;
- The modification, re-route, and upgrade of Spring Valley Road; and
- The realignment of two power transmission lines.

The Proposed Action would include 4,123 acres of disturbance on land administered by the BLM and 2,109 acres on private land. The total life of the project would be 29 years, including 2 years of construction, 11 years of mining, 3 additional years of ore processing, and 13 years of closure and reclamation activities. The Spring Valley Mine Project would employ a contractor workforce of approximately 130 contractors during the construction period and approximately 250 full-time employees during operations.

Under the No Action Alternative, the development of the Project would not be authorized and Solidus Resources, LLC, would not construct, operate, and close a new gold mine project.

## Mitigation

Mitigation is included in the Final EIS for Cultural Resources, Water Resources, and Wildlife Resources. Mitigation for cultural resources was developed for potential effects to 20 National Register of Historic Places eligible historic properties and includes development of a Historic Properties Treatment Plan and Memorandum of Availability. Mitigation for Water Resources was developed for surface disturbance, fencing, and potential groundwater drawdown effects to spring sites and includes monitoring for triggers, and different mitigation types to reduce effects. Mitigation for wildlife was developed for potential effects to desert kangaroo rats, greater sage-grouse, and burrowing owls, and includes flushing burrows, use of the State of Nevada Conservation Credit System, and installation of artificial burrows.

Based on the analyses contained in the Final EIS for the proposed Project, and after carefully considering input received from the public and cooperating agencies, the BLM has selected the Proposed Action as the BLM's preferred alternative and the No Action Alternative as the environmentally preferred alternative.

Comments on the Draft EIS received from the public and internal BLM review were considered and incorporated as appropriate into the Final EIS. Public comments resulted in the addition of clarifying text, but did not significantly change proposed decisions.

### Bureau of Land Management

[A2407–014–004–065516; #O2412–014–004–047181.1]

### Public Meeting for the Missouri Basin Resource Advisory Council

**AGENCY:** Bureau of Land Management, Interior.

**ACTION:** Notice of public meeting.

**SUMMARY:** In accordance with the Federal Land Policy and Management Act of 1976 and the Federal Advisory Committee Act of 1972, the U.S. Department of the Interior, Bureau of Land Management (BLM) Missouri Basin Resource Advisory Council (RAC) will meet as follows.

**DATE:** The RAC will meet on July 15, 2025, from 8 a.m. to 4 p.m. Mountain Time (MT).

**ADDRESSES:** The meeting will be held virtually using a web-based video-conferencing application. The meeting is open to the public. A public-comment period will be held from 11 a.m. to noon MT. Individuals who wish to attend must register with the person listed in the **FOR FURTHER INFORMATION CONTACT** section of this notice at least 7 business days prior to the meeting date.

**FOR FURTHER INFORMATION CONTACT:** Mark Jacobsen, Missouri Basin RAC Coordinator, BLM Eastern Montana-Dakotas District, 111 Garryowen Road, Miles City, Montana 59301; telephone: 406–233–2831; email: [mjacobse@blm.gov](mailto:mjacobsen@blm.gov). Persons in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

**SUPPLEMENTARY INFORMATION:** The 15-member council advises the Secretary of the Interior, through the BLM, on a variety of planning and management issues associated with public land management in Central and Eastern Montana, and North and South Dakota. Agenda topics will include North-Central Montana and Eastern Montana/Dakotas District reports, Field Office reports, a public comment period, and other topics the RAC may wish to cover. A final agenda will be posted on the RAC's web page at <https://www.blm.gov/get-involved/resource-advisory-council/near-you/montana-dakotas/missouri-basin-rac> two weeks in advance of the meeting.

**Public Comment Procedures:** The BLM welcomes comments from all interested parties. A public-comment period will be held from 11 a.m. to noon MT. Depending on the number of persons wishing to comment and time available, the time for individual oral comments may be limited. Written comments to the RAC can be emailed in advance of the meeting to the individual listed in the **FOR FURTHER INFORMATION CONTACT** section of this notice. All comments will be provided to the RAC. Please include “RAC Comment” in your submission.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may

be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

**Requests for Accommodations:** Please make requests in advance for sign language interpreter services, assistive listening devices, language translation services, or other reasonable accommodations. We ask that you contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section of this notice at least 14 business days prior to the meeting to give the Department of the Interior sufficient time to process your request. All reasonable accommodation requests are managed on a case-by-case basis.

(Authority: 43 CFR 1784.4–2).

**Wendy Warren,**

*Eastern Montana/Dakotas District Manager and Missouri Basin RAC Designated Federal Officer.*

## INTERNATIONAL TRADE COMMISSION

[Investigation Nos. 701–TA–722–725 and 731–TA–1690–1693 (Final)]

### Crystalline Silicon Photovoltaic Cells, Whether or Not Assembled Into Modules, From Cambodia, Malaysia, Thailand, and Vietnam

#### Determinations

On the basis of the record <sup>1</sup> developed in the subject investigations, the United States International Trade Commission (“Commission”) determines, pursuant to the Tariff Act of 1930 (“the Act”), that an industry in the United States is materially injured by reason of imports of crystalline silicon photovoltaic cells, whether or not assembled into modules (“CSPV products”), from Malaysia and Vietnam and that a U.S. industry is threatened with material injury by reason of imports of CSPV products from Cambodia and Thailand, provided for in statistical reporting numbers 8541.42.0010 and 8541.43.0010 of the Harmonized Tariff Schedule of the United States,<sup>2</sup> that have been found by the U.S. Department of Commerce (“Commerce”) to be sold in the United States at less than fair value (“LTFV”)

<sup>1</sup> The record is defined in § 207.2(f) of the Commission's Rules of Practice and Procedure (19 CFR 207.2(f)).

<sup>2</sup> CSPV products may also be imported under subheadings 8501.71, 8501.72, and 8501.80 and statistical reporting number 8507.20.8010.
