BILLING CODE 4510–43–P

DEPARTMENT OF LABOR

Agency Information Collection Activities; Submission for OMB Review; Comment Request; Hoist Operators' Physical Fitness

ACTION: Notice of availability; request for comments.

SUMMARY: The Department of Labor (DOL) is submitting this Mine Safety and Health Administration (MSHA)-sponsored information collection request (ICR) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995 (PRA). Public comments on the ICR are invited.

DATES: The OMB will consider all written comments that the agency receives on or before January 22, 2024.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

Comments are invited on: (1) whether the collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; (2) the accuracy of the agency's estimates of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

FOR FURTHER INFORMATION CONTACT: Michael Howell by telephone at 202–

693–6782, or by email at DOL_PRA_PUBLIC@dol.gov.

SUPPLEMENTARY INFORMATION: 30 CFR 56.19057 and 57.19057 require the annual examination and certification of hoist operators' fitness by a qualified, licensed physician. The information is used by mine operators and MSHA enforcement personnel to verify that persons operating hoisting equipment are physically able to safely perform their functions. If MSHA cannot verify that hoist operators are capable of performing their assigned tasks, the individuals themselves, and those requiring hoisting into or out of a mine, may be at risk. Hoist operators provide a critical service to all personnel and equipment going into and out of some surface and underground mines, as well as emergency responders on an as-needed basis. Improper hoisting, caused by the inability of a hoist operator to function effectively due to a medical problem, can cause serious injury or death. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on August 1, 2023 (88 FRN 50180).

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless the OMB approves it and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid OMB Control Number. See 5 CFR 1320.5(a) and 1320.6.

Agency: DOL–MSHA.

Title of Collection: Hoist Operators' Physical Fitness.

OMB Control Number: 1219–0049.

Affected Public: Businesses or other for-profits.

Number of Respondents: 803.

Frequency: On occasion.

Number of Responses: 803.

Annual Burden Hours: 27 hours.

Total Estimated Annual Other Costs Burden: \$ 325,157.

(Authority: 44 U.S.C. 3507(a)(1)(D))

BILLING CODE 4510–43–P

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice: (23–125)]

Nationwide Programmatic Agreement Regarding the Management of NASA Assets

AGENCY: National Aeronautics and Space Administration (NASA).

ACTION: Notice of availability (NOA) for a proposed nationwide programmatic agreement; request for comments.

SUMMARY: NASA is proposing a nationwide programmatic agreement (NPA), among NASA, the Advisory Council on Historic Preservation (ACHP) and the National Conference of State Historic Preservation Officers (NCSHPO) for management of NASA assets. The purpose of the NPA is to create a process by which NASA can meet its responsibilities to manage its U.S. real property assets under sections 106 and 110 of the National Historic Preservation Act (NHPA) in a manner that accommodates NASA's mission and addresses the unique challenges of historic highly technical and scientific facilities (HTSF). The need for a tailored process became more essential in 2015, when the Office of Management and Budget released the “National Strategy for the Efficient Use of Real Property” and the companion policy, “Reduce the Footprint”, which requires Federal agencies to dispose of surplus properties, make more efficient use of the Government's real property assets, and reduce the total square footage of their domestic office and warehouse inventory relative to an established baseline. NASA requests comments on the proposed agreement.

DATES: Comments should be received by January 24, 2024.

ADDRESSES: The Draft NPA is available for review at <https://www.nasa.gov/emd/npa-drafts/>. We encourage you to submit comments on the NPA via electronic mail to hq-crm@mail.nasa.gov. Comments may also be sent by mail Attention: Office of the General Counsel, (General Law—Curtis Borland), Mary W. Jackson NASA Headquarters, 300 E St. SW, Washington, DC 20546. Please note that correspondence sent by mail may encounter delays in receipt by the agency.

FOR FURTHER INFORMATION CONTACT: Dr. Rebecca Klein, Federal Preservation Officer, by electronic mail at hq-crm@mail.nasa.gov or 202.816.0020.

SUPPLEMENTARY INFORMATION: The NPA has been developed as a management approach that addresses the full range of

built, archaeological, and tribal cultural resources under NASA's stewardship. Supporting information on the NPA can be found on the NASA NPA website at <https://www.nasa.gov/emd/nasa-npa/>. This web page contains links to the Draft NPA, "NPA Drafts for Review," as well as supplemental resource information on three other pages: "About the NPA", "NPA Frequently Asked Questions (FAQs)", and "Resource Significance Framework (RSF)."

Joel R. Carney,

Assistant Administrator, Office of Strategic Infrastructure.

BILLING CODE 7510-13-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-255; NRC-2023-0200]

Environmental Assessment and Finding of No Significant Impact; Holtec Decommissioning International, LLC, and Holtec Palisades, LLC, Palisades Nuclear Plant

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice; issuance.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is considering issuance of exemptions that would permit the licensee to reduce its emergency planning (EP) activities at the Palisades Nuclear Plant (Palisades). Specifically, Holtec Decommissioning International, LLC (HDI), one of the licensees of Palisades and an indirect wholly owned subsidiary of Holtec International (Holtec), requested an exemption on behalf of Holtec Palisades, LLC, the other Palisades licensee (hereinafter collectively referred to as the licensee) that would eliminate the requirements to maintain formal offsite radiological emergency plans, as well as reduce the scope of some of the onsite EP activities based on the reduced risks at Palisades, based on the submission of certifications for permanent cessation of operations and permanent removal of fuel from the reactor vessel at Palisades. However, requirements for an onsite radiological emergency plan and for certain onsite capabilities to communicate and coordinate with offsite response authorities would be retained. In addition, offsite EP provisions would still exist through State and local government use of a comprehensive emergency management plan process, in accordance with the Federal Emergency

Management Agency's (FEMA's) Comprehensive Preparedness Guide (CPG) 101, "Developing and Maintaining Emergency Operations Plans." The NRC staff is issuing an environmental assessment (EA) and a finding of no significant impact (FONSI) associated with the proposed exemptions.

DATES: The EA and FONSI referenced in this document are available on December 22, 2023.

ADDRESSES: Please refer to Docket ID NRC-2023-0200 when contacting the NRC about the availability of information regarding this document. You may obtain publicly available information related to this document using any of the following methods:

- *Federal Rulemaking Website:* Go to <https://www.regulations.gov> and search for Docket ID NRC-2023-0200. Address questions about Docket IDs in *Regulations.gov* to Stacy Schumann; telephone: 301-415-0624; email: Stacy.Schumann@nrc.gov. For technical questions, contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- *NRC's Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly available documents online in the ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "Begin Web-based ADAMS Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, at 301-415-4737, or by email to PDR.Resource@nrc.gov. For the convenience of the reader, instructions about obtaining materials referenced in this document are provided in the "Availability of Documents" section of this document.

- *NRC's PDR:* The PDR, where you may examine and order copies of publicly available documents, is open by appointment. To make an appointment to visit the PDR, please send an email to PDR.Resource@nrc.gov or call 1-800-397-4209 or 301-415-4737, between 8 a.m. and 4 p.m. eastern time (ET), Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: Tanya E. Hood, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, telephone: 301-415-1387; email: Tanya.Hood@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Introduction

By letters dated September 28, 2017, and October 19, 2017, in accordance with sections 50.4(b)(8) and 50.82(a)(1)(i) of title 10 of the *Code of Federal Regulations* (10 CFR) part 50, "Domestic Licensing of Production and Utilization Facilities," Entergy Nuclear Operations, Inc. (ENOI), which was the licensee at that time, notified the NRC that it had decided to permanently cease power operations at Palisades by May 31, 2022.

Pursuant to 10 CFR 50.82(a)(1)(ii), by letter dated June 13, 2022, ENOI certified to the NRC that the fuel had been permanently removed from the Palisades reactor vessel and placed in the spent fuel pool (SFP). Upon the docketing of these certifications, in accordance with 10 CFR 50.82(a)(2), the Palisades license no longer authorizes operation of the reactor or emplacement or retention of fuel into the reactor vessel. The spent fuel from Palisades is stored in the SFP and in dry cask storage at the onsite independent spent fuel storage installation, where it will remain until it is shipped offsite.

By Order dated December 13, 2021, the NRC approved a transfer of the Palisades license from ENOI and Entergy Nuclear Palisades, LLC, to Holtec and HDI. This transfer was executed on June 28, 2022, such that HDI and Holtec Palisades, LLC became the licensees for Palisades. To address the upcoming transition from an operating plant to a permanently defueled facility, by letter dated September 24, 2018, the NRC issued an amendment authorizing ENOI to adopt a post-shutdown emergency plan (PSEP) and approving changes to the Palisades emergency plan to support the planned permanent cessation of operations and permanent removal of fuel from the reactor vessel. Upon implementation of the PSEP on June 15, 2022, the Palisades emergency response organization on-shift and augmented staffing requirements were revised commensurate with the reduced spectrum of credible accidents for a permanently shut down and defueled nuclear power reactor facility.

By letter dated July 11, 2022, the licensee requested exemptions from specific portions of 10 CFR 50.47, "Emergency plans," and appendix E, "Emergency Planning and Preparedness for Production and Utilization Facilities," to 10 CFR part 50 for the Palisades license. More specifically, HDI requested exemptions from certain planning standards in 10 CFR 50.47(b) regarding onsite and offsite radiological emergency preparedness (REP) plans for
