

separations at the subject firm. SAR 94–104.

In order to apply for TAA based on increased imports, the subject worker group must meet the group eligibility requirements under Section 222(a) of the Trade Act of 1974, as amended, that were in effect on June 5, 2006.

Under Section 222(a)(2)(A), the following criteria must be met:

A. A significant number or proportion of the workers in such workers' firm, or an appropriate subdivision of the firm, have become totally or partially separated, or are threatened to become totally or partially separated; *and*

B. The sales or production, or both, of such firm or subdivision have decreased absolutely; *and*

C. Increased imports of articles like or directly competitive with articles produced by such firm or subdivision have contributed importantly to such workers' separation or threat of separation and to the decline in sales or production of such firm or subdivision.

The Department has previously determined that because the subject firm closed on September 2005, criteria (A) and (B) have been met. Therefore, the only issue at hand is whether criterion (C) has been met.

29 CFR 90.2—Definitions—states that "Increased imports means that imports have increased either absolutely or relative to domestic production compare to a representative base period. The representative base period shall be one year consisting of the four quarters immediately preceding the date which is twelve months prior to the date of the petition."

Because the date of the petition is June 5, 2006, the sole issue is whether imports during June 2005 through May 2006 were greater than during June 2004 through May 2005.

During the third remand investigation, the Department contacted the foreign customer, SAR 30–40, company officials of both domestic companies that replaced the subject firm, SAR 41–59, 63–162, and issued a subpoena, 131–138, to obtain information necessary to make a determination regarding the subject workers' eligibility to apply for TAA.

During the third remand investigation, the Department confirmed that when the subject firm ceased operations in 2005, the foreign customer replaced printed circuit boards produced by the subject firm with those produced by two preferred vendors, both vendors are domestic companies. SAR 30, 35, 38. The Department also obtained information from each vendor that the PCB assemblies supplied to the foreign customer were produced outside

the United States and shipped from the foreign production facility without entering the United States en route to the foreign customer. SAR 41, 44–47, 50, 56, 58, 59–62, 64, 67–68, 105, 108–109, 121, 139, 147–149, 151–152, 154, 159, 161–163.

Because neither of the domestic companies that replaced the subject firm as the preferred vendor of the foreign customer imported articles like or directly competitive with the PCB assemblies produced by the subject firm, the Department determines that TAA criterion (C) has not been met.

In order for the Department to issue a certification of eligibility to apply for ATAA, the subject worker group must be certified eligible to apply for TAA. Since the subject workers are not eligible to apply for TAA, the workers cannot be certified eligible for ATAA.

Conclusion

After careful reconsideration, I affirm the original notice of negative determination of eligibility to apply for worker adjustment assistance for workers and former workers of Advanced Electronics, Inc., Boston, Massachusetts.

Signed at Washington, DC, this 15th day of April 2010.

Del Min Amy Chen,

Certifying Officer, Division of Trade Adjustment Assistance.

OFFICE OF PERSONNEL MANAGEMENT

Submission for OMB Review; Request for Extension, Without Change, of A Currently Approved Collection: (OMB Control No. 3206-0211; Reemployment of Annuitants, 5 CFR 837.103)

AGENCY: Office of Personnel Management.

ACTION: Notice.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (Pub. L. 104-13, May 22, 1995), this notice announces that the Office of Personnel Management (OPM) has submitted to the Office of Management and Budget (OMB) a request for extension, without change, of a currently approved information collection. "Reemployment of Annuitants" (OMB Control No. 3206-0211; 5 Section 837.103), requires agencies to collect information from retirees who become employed in Government positions. Agencies need to collect timely information regarding the type and amount of annuity being received so the correct rate of pay can be determined. Agencies provide this information to OPM so a determination can be made whether the reemployed retiree's annuity must be terminated.

Approximately 3,000 reemployed retirees are asked this information annually. It takes each reemployed retiree approximately 5 minutes to provide the information for an annual estimated burden of 250 hours.
