

ANR Storage is not requesting any change to the Maximum Daily Withdrawal Quantity and Maximum Daily Injection Quantity from the currently authorized levels.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before August 19, 2002, file with the Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 14 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commenters will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commenters will not be required to serve copies of filed documents on all other parties. However, the non-party commenters will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the

Commission) and will not have the right to seek court review of the Commission's final order.

The Commission may issue a preliminary determination on non-environmental issues prior to the completion of its review of the environmental aspects of the project. This preliminary determination typically considers such issues as the need for the project and its economic effect on existing customers of the applicant, on other pipelines in the area, and on landowners and communities. For example, the Commission considers the extent to which the applicant may need to exercise eminent domain to obtain rights-of-way for the proposed project and balances that against the non-environmental benefits to be provided by the project. Therefore, if a person has comments on community and landowner impacts from this proposal, it is important either to file comments or to intervene as early in the process as possible.

Comments, protests, and interventions may be filed electronically via the internet in lieu of paper. *See*, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site under the "e-Filing" link.

If the Commission decides to set the application for a formal hearing before an Administrative Law Judge, the Commission will issue another notice describing that process. At the end of the Commission's review process, a final Commission order approving or denying a certificate will be issued.

### Federal Energy Regulatory Commission

[Docket Nos. EL00-95-000, EL00-98-000, and ER02-1656-000]

#### **San Diego Gas & Electric Company, Complainant, v. Sellers of Energy and Ancillary Services Into Markets Operated by the California Independent System Operator and the California Power Exchange, Respondents; Investigation of Practices of the California Independent System Operator and the California Power Exchange; California Independent System Operator (MD02); Notice of Technical Conference**

July 29, 2002.

As directed by the Commission order issued on July 17, 2002 in Docket No. ER02-165-000 and EL01-68-017, 100 FERC ¶ 61,060, the Federal Energy Regulatory Commission Staff is convening a technical conference to facilitate continued discussions between the California Independent System Operator Corporation (CAISO), market participants, state agencies and other interested participants on the development of a revised market design for the CAISO. Staff will issue an agenda the week of August 5, 2002. The conference will be held in San Francisco, California, at the Renaissance Parc 55 Hotel, 55 Cyril Magnin Street, San Francisco, CA, on August 13, 14 and 15, 2002, beginning at 9 a.m.

For additional information concerning the conference, interested persons may contact Susan G. Pollonais at (202) 208-0011 or by electronic mail at [susan.pollonais@ferc.gov](mailto:susan.pollonais@ferc.gov). No telephone communication bridge will be provided at this technical conference.

## DEPARTMENT OF ENERGY

### Federal Energy Regulatory Commission

[Docket No. ER02-851-000]

#### **Southern Company Services, Inc.; Notice of Non-Disclosure Agreement at Technical Conference**

July 26, 2002.

On July 5, 2002, notice was issued that a technical conference will be held in the above-captioned matter on Wednesday, August 7, 2002 at 9:30 a.m.

and that the conference may continue on Thursday, August 8, 2002 at 9:30 a.m. if needed. The conference is open to all interested parties and staff. The July 5, 2002 notice stated that the parties should be prepared to discuss at the technical conference the contested issues, staff's information requests, and the answers thereto.

On July 12, 2002, Southern Company Services, Inc. filed responses to staff's requests for information that included a request for confidential treatment of certain materials pursuant to section 388.112 of the Commission's regulations, 18 CFR 388.112, and under the Commission's order on critical energy infrastructure information in Docket Nos. RM02-4-000 and PL02-1-000.<sup>1</sup> At the upcoming August 7, 2002 technical conference, to ensure that the answers to staff's information requests may be freely discussed, all interested parties will be expected to sign the attached nondisclosure agreement as a precondition to attendance and participation.

Dated:

**Linwood A. Watson, Jr.,**  
Deputy Secretary.

#### Non-Disclosure Agreement

I hereby agree that I will not disclose the non-public material divulged at the August 7-8, 2002 technical conference in this proceeding to anyone other than, as appropriate, my client, my supervisor(s), or anyone else whom I represent or to whom I report and must not engage in any communications prohibited under 18 CFR § 37.4 (2002). That person(s) in turn may not disclose the information to anyone. I understand that the contents of the non-public material, any notes or other memoranda, or any other form of information that copies or discloses this material shall not be disclosed to anyone other than as noted. I further understand that I shall use this material only in connection with this proceeding. I acknowledge that a violation of this agreement constitutes a violation of the Commission's orders in this proceeding establishing a technical conference to explore the issues. *Southern Company Services, Inc.*, 98 FERC ¶ 61,328 at 62,386, *order on reh'g*, 99 FERC ¶ 61,839 at 61,840 (2002).

## ENVIRONMENTAL PROTECTION AGENCY

[FRL-7254-7]

### Agency Information Collection Activities: Submission for OMB Review; Comment Request; Personal Exposure of High-Risk Subpopulations to Particles

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that the following Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval: Personal Exposure of High-Risk Subpopulations to Particles; OMB Control Number 2080-0058, expiring July 31, 2002. The ICR describes the nature of the information collection and its expected burden and cost; where appropriate, it includes the actual data collection instrument.

**DATES:** Comments must be submitted on or before September 3, 2002.

**ADDRESSES:** Send comments, referencing EPA ICR No. 1887.02 and OMB Control No. 2080-0058, to the following addresses: Susan Auby, U.S. Environmental Protection Agency, Collection Strategies Division (Mail Code 2822T), 1200 Pennsylvania Avenue, NW., Washington, DC 20460-0001; and to Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Attention: Desk Officer for EPA, 725 17th Street, NW., Washington, DC 20503.

**FOR FURTHER INFORMATION CONTACT:** For a copy of the ICR contact Susan Auby at EPA by phone at (202) 566-1672, by E-mail at [Auby.Susan@epamail.epa.gov](mailto:Auby.Susan@epamail.epa.gov), or download off the Internet at <http://www.epa.gov/icr> and refer to EPA ICR No. 1887.02. For technical questions about the ICR contact Lance Wallace, Office of Research and Development, on 703-620-4543.

#### SUPPLEMENTARY INFORMATION:

**Title:** Personal Exposure of High-Risk Subpopulations to Particles (OMB Control number 2080-0058; EPA ICR No.1887.02) expiring July 31, 2002. This

is a request for extension of a currently approved collection.

**Abstract:** Because of the possible health effects of particulate air pollution, the Agency has a responsibility to determine the relationship of human exposure to particles with ambient air concentrations. At the urging of the National Academy of Sciences, four studies were begun in 1999 to determine personal exposure of high-risk subpopulations to particles. Three of the studies have completed data collection, but the fourth study will still be collecting data after the July 31, 2002 expiration date of the OMB-approved original questionnaire. The data will be used to help the Agency in its determination of the proper regulatory approach to ambient particles. All participation is completely voluntary. This will not involve any addition to the burden hours already approved.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR Chapter 15. The **Federal Register** document required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on April 2, 2002 (67 FR 15565). No comments were received.

**Burden Statement:** The annual public reporting and record keeping burden for this collection of information is estimated to average 20 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

**Respondents/Affected Entities:** Respondents with chronic obstructive pulmonary disease and cardiovascular disease.

**Estimated Number of Respondents:** 104

**Frequency of Response:** Daily for 12 days.
