SUPPLEMENTARY INFORMATION:

General Information

A. Does this action apply to me?

Entities potentially affected by this action are: The EPA; tribal programs; and the regulated community and citizens within the state of North Dakota. This table is not intended to be exhaustive; rather, it provides a guide for readers regarding entities that this action is likely to regulate.

TABLE 1—ENTITIES POTENTIALLY AFFECTED BY THIS PROPOSED APPROVAL

Municipalities	POTWs required to apply for or seek coverage under an NPDES individual or general permit and to perform routine monitoring as a condition of an NPDES permit.

If you have any questions regarding the applicability of this action to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

B. What action is EPA taking?

The EPA is providing final notice of approval of the transfer of authority from the State of North Dakota's Department of Health (NDDOH) granting the North Dakota Department of

Environmental Quality (NDDEQ) the authority to administer the NDPDES program in North Dakota to regulate discharges of pollutants into waters of the United States under its jurisdiction. Concurrent with this approval, EPA is approving updated NDPDES program revisions. With this action the EPA will retain the authority to issue NPDES permits for facilities located on tribal

lands and/or discharging to tribal waters.

C. What is EPA's authority for taking this action?

Under 40 CFR 123.62(b) and 123.62(c), the CWA requires the EPA to approve substantial revisions to a state program. The EPA considers the change of state authority and updating of the NDPDES program rules to be substantial and has therefore taken this action.
