

requirements for the approval and establishment of permanent, privately owned horse quarantine facilities that are operated under APHIS supervision. These regulations necessitate the use of several information collection activities when applicants apply for approval to establish and operate permanent, privately owned quarantine facilities for horses.

Need and Use of the Information: APHIS will collect the following information to ensure that horses can be imported into the United States without compromising its ability to protect against the introduction of communicable diseases of horses: (1) Environment Certification, (2) Application for Facility Approval, (3) Service Agreements, (4) Letter Challenging Withdrawal for Facility Approval, (5) Letter Notifying APHIS of Facility Closure, (6) Memorandum of Understanding/Compliance Agreement, (7) Security Instructions, (8) Alarm Notification, (9) Security Breach, (10) List of Personnel, (11) Signed Statements, (12) Daily Log, (13) Request for Variance, (14) Authorization Access Affidavits, and (15) Standards Operating Procedures. Without the information APHIS would be unable to approve permanent, privately owned horse quarantine facilities. Importers of horses would find it difficult to get quarantine space at either Federal facilities or temporary, privately owned facilities, which could decrease equine imports. This would impede trade and create challenges for the U.S. equine industry.

Changes Since the Preliminary Results

After evaluating the comments received from interested parties and record information, we have made no changes to the net subsidy rates calculated for Chandan Steel Limited (Chandan) and Kisaan Die Tech Pvt Ltd. (Kisaan). For a discussion of these comments, see the Issues and Decision Memorandum.

Methodology

Commerce is conducting this review in accordance with section 751(a)(1)(A) of the Tariff Act of 1930, as amended (the Act). For each of the subsidy programs found countervailable, we find that there is a subsidy, *i.e.*, a financial contribution from a government or public entity that gives rise to a benefit to the recipient, and the subsidy is specific.⁵ For a full description of the methodology underlying our conclusions, see the Issues and Decision Memorandum.

Companies Not Selected for Individual Review

For the companies not selected for individual review, because the rates calculated for Chandan and Kisaan are above *de minimis* and not based entirely on facts available, we applied a subsidy rate based on the weighted-average of
