BILLING CODE 7040–01–P

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

Environmental Assessment: Jessamine County and Madison County, KY

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice of Intent (NOI).

SUMMARY: The Federal Highway Administration (FHWA) is issuing this notice to advise the public that FHWA will prepare an Environmental Assessment (EA) to determine the need for a Finding of No Significant Impact (FONSI) or an Environmental Impact Statement (EIS)/Record of Decision (ROD) for a new connector between US 27 in Jessamine County, KY and 1–75 in Madison County, KY. This project will adhere to the requirements of Section 6002 of SAFETEA–LU. The purpose of the 1–75 Connector project is to improve regional access and east-west connectivity. Comments on the scope of the EA for the proposed project should be forwarded no later than May 1, 2012.

FOR FURTHER INFORMATION CONTACT: Federal Highway Administration, Kentucky Division: Mr. Ian Chidister, Environmental Specialist, 330 West Broadway, Frankfort, KY 40601. Ian may be reached by phone at 502–223–6730, or by email at Ian.Chidister@dot.gov. For additional information, contact Ananias Calvin, P.E., Project Manager for the Kentucky Transportation Cabinet, at (859) 246–2355 or via email at Ananias.Calvin@ky.gov.

SUPPLEMENTARY INFORMATION: The FHWA, in cooperation with the Kentucky Transportation Cabinet (KYTC), will prepare an EA to determine the need for a Finding of No Significant Impact (FONSI) or an Environmental Impact Statement (EIS)/Record of Decision (ROD) for a new connector between US 27 in Jessamine County, KY and 1–75 in Madison

County, KY. The study area extends from the proposed Eastern Nicholasville Bypass (US 27) to 1–75 near the KY 627 Interchange, including a new crossing at the Kentucky River. The nearest alternate connection between the two routes is Man O' War Boulevard in Lexington, KY. KY 169 also provides a rural route between Nicholasville, KY and Richmond, KY; however, the only Kentucky River crossing on this route is provided by the Valley View Ferry, an automobile-only ferry service that provides cross river service during limited service hours.

The objective of this study is to identify alternative corridors for the 1–75 Jessamine County Connector while considering environmental, social, engineering, costs and other factors in the project vicinity. This study will conform to Kentucky's environmental guidance and the SAFETEA–LU Section 6002 requirements.

Environmental Issues: Possible environmental impacts include effects to historical properties or farmland; increased noise; viewshed impacts; impacts to water resources, flood plains, prime farmland, sensitive biological species and their habitat; land use compatibility impacts; community impacts; and impacts to agricultural lands.

Alternatives: The EA will consider alternatives that include the No-Build (Do Nothing) Alternative as well as a range of build alternatives on new alignment.

Public and Agency Participation: FHWA encourages broad participation in the EA process and review of the resulting environmental documents. Comments, questions, and suggestions related to the project and potential socioeconomic and environmental concerns are invited from all interested agencies and the public at large to ensure that the full range of issues related to the proposed action and all reasonable alternatives are considered and all significant issues are identified. These comments, questions, and suggestions should be forwarded to either phone number or email address listed above.

Early Coordination Letters will be sent to the appropriate Federal, State and local agencies in the Spring of 2012 describing the project, following a project kick-off coordinated through a media news release. An invitation letter will be sent to potential Cooperating Agencies, Participating Agencies, and Section 106 Consulting Parties inviting the agencies to officially take part in the study, encouraging agency comments and suggestions concerning the proposed project, and further defining
