Agency Information Collection Activities: Submission for OMB Review; Comment Request

Periodically, the Substance Abuse and Mental Health Services Administration

(SAMHSA) will publish a summary of information collection requests under OMB review, in compliance with the Paperwork Reduction Act (44 U.S.C. chapter 35). To request a copy of these documents, call the SAMHSA Reports Clearance Officer on (240) 276–0361.

Project: Assessment of the Communities Talk To Prevent Underage Drinking—(OMB No. 0930–0288)—Reinstatement

The Substance Abuse and Mental Health Services Administration/Center for Substance Abuse Prevention (SAMHSA/CSAP) is requesting a reinstatement from the Office of Management and Budget (OMB) of the information collection regarding the Assessment of the *Communities Talk to Prevent Underage Drinking* initiative which is implemented by the Underage Drinking Prevention Education Initiatives (UADPEI) within CSAP. The data collection was most recently approved under OMB No. 0930–0288, Assessment of the Town Hall Meetings on Underage Drinking Prevention,

Revisions were made to the Organizer Survey; it can be completed twice, namely after a round of Communities Talk events/activities (activities) from February 2022 to April 2022, and as a follow-up one year later from February 2023 to April 2023. The Organizer Survey—6-month Follow-up and Participant Form (English and Spanish versions) were dropped.

Under the most recent approval, the Organizer Survey consisted of 20 items. Under this reinstatement, the Organizer Survey includes 14 items about *Communities Talk* activities and how communities might be carrying out evidence-based strategies to prevent underage drinking (UAD). Seven new questions were added pertaining to the number of *Communities Talk* activities that have ever taken place in the community (q2), preparation (tied or not tied to

Communities Talk) completed to help organizers carry out evidence-based strategies to prevent UAD in their community (q4), confidence to carry out tasks related to evidence-based

prevention (q7), current work to carry out evidence-based strategies (q8), perceived efficacy of *Communities Talk* to enhance UAD prevention in the community (q10), type of organization

represented by respondent (q13), and audiences targeted by respondent's organization (q14). Some of these items (*i.e.*, q4, q7, and q8) are modified versions of instruments validated by Chinman et al. (2008).

The revisions were necessary to better align the data gathered to the short-term and long-term outcomes of the *Communities Talk* activities for organizers, specifically:

Short-term

- Increase staff's perceived threat of UAD to residents of the communities;
- Increase staff's knowledge related to using evidence-based approaches to carry out future UAD drinking prevention activities;
- Increase staff's perceived efficacy of *Communities Talk* to enhance UAD prevention in the community;
- Increase staff's skills related to using evidence-based approaches to carry out future UAD prevention activities, specifically share information about UAD with others host meetings or discussion groups; create committees, task forces, advisory boards, or other action groups; build coalitions; develop strategic plans; and advocate for policies
- Increase staff's self-efficacy related to using evidence-based approaches to carry out future UAD prevention activities; and
- Increase staff's intention related to using evidence-based approaches to carry out future UAD prevention activities.

Long-term

- Increase staff's use of evidence-based approaches to carry out future UAD prevention activities.

While completing the initial Organizer Survey, staff of Community-Based Organizations (CBO's) and Institutions of Higher Education (IHE's) can opt in to be contacted 1 year later. If they do so, they will receive an invitation to complete the same online questionnaire 1 year later. This will enable SAMHSA to determine how

organizers might have progressed toward the aforementioned short- and long-term outcomes. Note that the Organizer Survey (see Attachment 1) has replaced the Organizer Survey—6-month Follow-Up. This change enables SAMHSA to compare responses between the initial and follow-up time periods (*e.g.*, and thus determine whether the same skills have increased or decreased over time).

SAMHSA/CSAP will be responsible for collecting, compiling, analyzing, and reporting on information requested through these surveys.

The Participant Survey has been discontinued in alignment with SAMHSA's focus on organizers as the target audience of *Communities Talk* activities.

SAMHSA supports nationwide *Communities Talk* activities every other year. Collecting data on each round of *Communities Talk* and using this information to inform policy and measure impact connects with SAMHSA's Strategic Plan FY2019–FY2023, specifically "Objective 3.2: Expand community engagement around substance use prevention, treatment, and recovery" (SAMHSA, 2018). *Communities Talk* activities are intended to work at the grassroots level to raise awareness of the public health dangers of UAD and to engage communities in evidence-based prevention. Notably, *Communities Talk* activities provide a forum for communities to discuss ways they can best prevent UAD by reducing the availability of alcohol and by creating community norms that discourage demand.

SAMHSA will use the information collected to document the implementation efforts of this nationwide initiative, determine if the federally sponsored *Communities Talk* activities lead to additional activities within the community that are aimed at preventing and reducing UAD, identify

what these activities may possibly include, and help plan for future rounds of *Communities Talk*. SAMHSA intends to post online a summary document of each round of *Communities Talk* activities and present findings at national conferences attended by CBOs and IHEs that have hosted these activities and might do so again in the future. Similarly, SAMHSA plans to share findings with the Interagency Coordinating Committee on the Prevention of Underage Drinking. Agencies within this committee encourage their grantees to participate in *Communities Talk*. Additionally, the information collected will support performance measurement for SAMHSA programs under the Government Performance Results Act (GPRA).

Data Collection Component

SAMHSA/CSAP will use a web-based method, such as Voxco, to collect data through the Organizer Survey. The web-based application will comply with the requirements of Section 508 of the Rehabilitation Act to permit accessibility to people with disabilities.

From February 2022 to April 2022, the Organizer Survey—Initial will be completed by an estimated 500 *Communities Talk* activity organizers and will require only one response per respondent. It will take an average of 10 minutes (0.167 hours) to review the instructions and complete the survey. Similarly, from February 2023 to April 2023, the Organizer Survey—Follow-up will be completed by an estimated 500 *Communities Talk* activity organizers and will require only one response per respondent. It will take an average of 10 minutes (0.167 hours) to review the instructions and complete the survey. This burden estimate is based on comments from three 2019 *Communities Talk* activity organizers who reviewed the survey and provided comments on how long it would take them to complete it.

ESTIMATED ANNUALIZED BURDEN TABLE

Form name	Number of respondents	Responses per respondent	Total responses	Hours per response	Total hour burden
Organizer Survey—Initial	500	1	500	0.167	83.50
Organizer Survey—Follow-Up	500	1	500	0.167	83.50
Total	500	1,000	167.00
