Needs and Uses: Section 743 of the Strom Thurmond National Defense Authorization Act for Fiscal Year 1999 authorized the Secretary of Defense to establish a center devoted to “* * * longitudinal study to evaluate data on the health condition of members of the Armed Forces upon their return from deployment * * *.” Based upon this legislation, the Assistant Secretary of Defense for Health Affairs established the DoD Center for Deployment Health Research on September 30, 1999 (OSD/HA Policy 99–028). The Department of Defense shares with the President and Congress a firm commitment to improve the health of our veterans, their families, and all who service our nation, now and in the future. The National Science and Technology Council (NSTC) Presidential Review Directive 5 (PRD–5), Planning for Health Preparedness for and Readjustment of the Military, Veterans, and their Families after Future Deployments is an interagency plan which provides a comprehensive set of recommendations designed to help ensure this obligation is met in a manner that takes into consideration the successes and failures of past deployments. A key recommendation in this plan and necessity if we are to meet this commitment is treatment, research, and surveillance efforts aimed at minimizing adverse health effects that may be experienced during and after deployment.

In its ongoing response to this legislation, DoD plans to conduct a postal survey of current and past U.S. service members who received the smallpox vaccine under the DoD Smallpox Vaccination Program, which began on December 13, 2002. Subsequent to initiation of this program, a small percentage of service members developed either myocarditis or pericarditis following a primary smallpox vaccination. (Refs: Halsell JS, *et al.*, JAMA 2003; 289:3283–9; Arness MK, *et al.*, AJE 2004; 160:642–51). In response to these cases, the DoD established additional policies and guidelines: (1) Policy for Smallpox Vaccination and Persons with Cardiac Conditions (OSD/HA, Policy 03–002), and (2) Establishment of Case Management Guidelines for Smallpox Vaccine Associated Myopericarditis (OSD/HA, June 9, 2003). The survey will obtain risk factor information from identified myocarditis or pericarditis

cases and a number of smallpox vaccinated but healthy controls. The objective of the study is to understand why a small percentage of smallpox-vaccinated service members develop myocarditis or pericarditis.

AGENCIES: Department of Defense (DOD), General Services Administration (GSA), and National Aeronautics and Space Administration (NASA).

ACTION: Notice of request for public comments regarding an extension to an existing OMB clearance (9000–0069).

SUMMARY: Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the Federal Acquisition Regulation (FAR) Secretariat has submitted to the Office of Management and Budget (OMB) a request to review and approve an extension of a currently approved information collection requirement concerning indirect cost rates. A request for public comments was published at 70 FR 56165 in the **Federal Register** on

September 26, 2005. No comments were received.

DATES: Submit comments on or before January 5, 2006.

ADDRESSES: Submit comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to: FAR Desk Officer, OMB, Room 10102, NEOB, Washington, DC 20503, and a copy to the General Services Administration, Regulatory Secretariat (MVA), 1800 F Street, NW, Room 4035, Washington, DC 20405. Please cite OMB Control No. 9000-0069, Indirect Cost Rates, in all correspondence.

FOR FURTHER INFORMATION CONTACT: Jeritta Parnell, Contract Policy Division, GSA (202) 501-4082.

SUPPLEMENTARY INFORMATION:

A. Purpose

The contractor's proposal of final indirect cost rates is necessary for the establishment of rates used to reimburse the contractor for the costs of performing under the contract. The supporting cost data are the cost accounting information normally prepared by organizations under sound management and accounting practices. The proposal and supporting data is used by the contracting official and auditor to verify and analyze the indirect costs and to determine the final indirect cost rates or to prepare the Government negotiating position if negotiation of the rates is required under the contract terms.

B. Annual Reporting Burden

Respondents: 3,000.

Responses per Respondent: 1.

Annual Responses: 3,000.

Hours per Response: 2,188.

Total Burden Hours: 6,564,000.

Burden hours are based on an estimated 3000 business segments that have overhead rates established annually. The hours per response are based on the sum of estimated hours per response for reporting and estimated hours per response for recordkeeping. The estimated total burden hours increased substantially from 2,469 hours to 6,564,000 hours for all respondents because we changed the method of estimating, not because the burden has increased. Prior estimates were based on the time to generate a proposal document. The new estimate is based on the time necessary to keep records, analyze information and generate a proposal document.

Obtaining Copies of Proposals:

Requesters may obtain a copy of the information collection documents from

the General Services Administration, Regulatory Secretariat (MVA), Room 4035, 1800 F Street, NW, Washington, DC 20405, telephone (202) 501-4755. Please cite OMB Control No. 9000-0069, Indirect Cost Rates, in all correspondence.
