

Services of Veterans, Migrant and Seasonal Farm Workers, Native Americans, People, with Limited English-Speaking Ability, and Individuals in Sparsely Populated Areas, 1979.

LSC provides funding for Basic Field—Migrant grants on a per-capita basis by determining the size of the subpopulation and separating that population from the overall poverty population for the applicable geographic area or areas. LSC expects programs receiving these grants to serve the legal needs of a broad range of eligible agricultural workers and their dependents who have specialized legal needs that are most effectively and efficiently served through a dedicated grant program. LSC currently uses data regarding migrant and seasonal farmworkers, and their families, from the early 1990s, with some adjustments based on changes in the general poverty population. These data are no longer current and do not reflect the entire population served by these grants.

The United States Department of Labor, Employment and Training Administration (ETA), collects data regarding agricultural workers for federal grants serving the needs of the American agricultural worker population. The U.S. Census Bureau does not maintain data regarding agricultural workers. LSC has contracted with ETA to obtain more current data regarding the agricultural worker population served by these grants. ETA has provided LSC with these data, including state-by-state breakdowns. The changes in data will result in changes in funding levels for these grants.

In January of 2015, LSC management (Management) proposed to the LSC Board of Directors (Board) that LSC seek comments on using the new data for these grants as follows:

(1) Implementing the new data for calculation of these grants beginning in January 2016;

(2) phasing in the funding changes to provide intermediate funding halfway between the old and new levels for 2016 and to fully implement the new levels for 2017; and

(3) updating the data every three years on the same cycle as LSC updates poverty population data from the U.S. Census Bureau for the distribution of LSC's Basic Field—General grants.

Upon approval by the Board's Operations and Regulations Committee (Committee) on January 22, 2015, and the Board on January 24, 2015, LSC published a notice for comment on this proposal in the **Federal Register** on February 3, 2015, 80 FR 5791. LSC

extended the comment period to April 20, 2015, via notice in the **Federal Register** on March 19, 2015, 80 FR 14413. Management's proposal, related documents and the comments submitted are available at: <http://www.lsc.gov/about/mattersforcomment.php>.

LSC received eleven comments from ten individuals or organizations. The National Legal Aid and Defender Association (NLADA) submitted two comments—one from the NLADA Civil Policy Group and one from the NLADA Farmworker Section.

The comments all supported the proposal to use more current data for apportioning funding to and among these grants. Some comments raised concerns about the source data and the methodology used. In particular, concerns were raised about the types of state groupings used for distribution of the data among the states. Those comments stated that the groupings did not accurately reflect the patterns of employment and residence for low-income agricultural workers and their dependents. Some comments identified additional sources of data for determining the relevant populations in some states. Comments also sought additional access to the source data and methodology used by the Department of Labor. Other issues raised by the comments included the scope of the definition of "agricultural worker," implementation over two or three years, and adjustments to the data for aliens eligible under federal law for LSC services based on sexual abuse, domestic violence, trafficking, or other abusive or criminal activities. *See* 45 CFR 1626.4—Aliens eligible for assistance under anti-abuse laws.

Based on these comments, Management proposed to the Committee that LSC further investigate improvements to the data, postpone prospective implementation until January 2017, seek additional comments on revised options, and publish this notice. On July 16, 2015, the Committee approved Management's proposal. On July 18, 2015, the Board adopted the recommendation of Management and the Committee.

Management has contracted with ETA to obtain expert review of the issues regarding source data and methodology raised by the comments. Management will publish on the Matters for Comment page of www.lsc.gov additional information regarding the source data and methodology. Management will also determine whether ETA can provide revised data based on some of the considerations raised in the comments. Based on this review and any other relevant

information, LSC will publish for comment any revised data and a proposal for implementation. Implementation would begin January 2017.

Dated: July 22, 2015.

Stefanie K. Davis,

Assistant General Counsel.
