

6. Project Assessment and Support (10 Points)

Provide letters of support from each participating facility. Describe how an assessment of STD testing in HIV-care facilities in the project area was performed, and provide evidence that facilities are chosen where routine STD screening is conducted.

7. Project Sustainability (10 Points)

Potential sustainability of project, as determined by the extent to which current project activities have been integrated with existing program activities, and local program support for the proposed project so that it may be continued Without federal funding beyond the project period.

8. Data Analysis and Dissemination (5 Points)

Demonstrated ability to analyze data and disseminate findings to public health officials and community planning groups.

9. Collaboration (5 Points)

Extent of participation by STD, TB, and HIV/AIDS communicable disease surveillance units, as indicated by letters of support.

10. Budget (Reviewed, But Not Scored)

The extent to which the itemized budget for conducting the project is reasonable and well justified.

11. Human Subjects (Not Scored; however, an application can be disapproved if the research risks are sufficiently serious and protection against risks is so inadequate as to make the entire application unacceptable). Does the application adequately address the requirements of Title 45 CFR Part 46 for the protection of human subjects?

I. Other Requirements
