

14 and/or Framework 6, and adopt a modified plan of action for Amendment 14, Framework 6, or both. The Council will review options regarding multi-year setting of specifications for spiny dogfish as proposed in Framework 1 to the Dogfish FMP, and review and comment on the principal measures contained in Amendment 2 to NMFS' FMP for Highly Migratory Species (HMS), i.e., Atlantic tunas, swordfish, and sharks.

Thursday, March 17

The Research Set-Aside Committee will review the 2006 request for proposal (RFP), and review and comment on changes to NOAA's grant process. The Tilefish Committee will review and discuss items to be addressed in a scoping document to be used in the development of Amendment 1. The Council will convene at 10 a.m. and conduct a scoping meeting to address the possible need for a Controlled Access System for Atlantic mackerel; hear committee reports; and, act on any new and/or continuing business.

Although non-emergency issues not contained in this agenda may come before the Council for discussion, these issues may not be the subject of formal Council action during this meeting. Council action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take final actions to address such emergencies.
