Title: Summer Food Site Locations for State Agencies.

Form Number: FNS-905.

OMB Number: 0584-XXXX.

Expiration Date: XX/XX/20xx.

Type of Request: This is a new data collection.

Abstract:

This data collection was originally part of OMB control number 0584-0474 National Hunger Clearinghouse Database Forms and now has been transferred to Child Nutrition in order to improve efficiency under form number FNS-905 and a new OMB control number (0584-XXXX) Summer Food Site Locations for State Agencies.

The Form FNS-905: Summer Food Site Locations for State Agencies is the instrument used to voluntarily collect information from State agencies about approved summer meal sites for the Summer Food Service Program and the Seamless Summer Option of the National School Lunch Program. The form collects site name, location, and operating details, such as dates and times of the day that the sites are in operation, that provide summer meals to children 18 years and younger in low income communities during the summer. The Form FNS-905 may only be completed by State agencies as Summer Sites must be approved by the State agencies before being made public.

The Form FNS-905 is part of requirements found in statute in Section 26 of the National School Lunch Act (NSLA), which mandates that the Food and Nutrition Service (FNS) enter into a contract with a nongovernmental organization to develop and maintain a national information clearinghouse of grassroots organizations working on hunger, food, nutrition, and other agricultural issues, including food recovery, food assistance and self-help activities to aid individuals to become self-reliant, and other activities that empower low-income individuals.

The Form FNS-543, originally developed to satisfy this statutory requirement, collects information and resources to help build the capacity of emergency food providers to address the immediate needs of struggling families and individuals while promoting self-reliance and access to healthy food. The Form FNS-543a was submitted as an

addendum to Form FNS-543. The Form FNS-543 collects information directly from organizations providing other types of assistance; however, the information collected through Form FNS-543a was collected and submitted by the State agencies. Because of this, FNS decided to develop a new form to replace Form FNS-543a. Form FNS-905 was developed for this purpose and may only be submitted by State agencies. The Form FNS-905 collects information about approved summer meal sites. The information from both of these forms populates the National Hunger Clearinghouse, which is a resource for the public to find information about the food safety net.

FNS will also provide this information for individuals to find meals for children when school is out, and for groups that assist these low income individuals or communities to find meals for children in the summer. The information provides an innovative way to connect families to meals during the summer months, and assists communities in the development, coordination, and evaluation of strategic initiatives, partnership, and outreach activities.

Affected Public: State, Local and Tribal Government: Respondent groups identified include State agencies administering the Summer Food Service Program.

Estimated Number of Respondents: The total estimated number of respondents is 53. This includes: the 50 State agencies administering the Summer Food Service Program as well as the District of Columbia, Virgin Islands and Puerto Rico.

Estimated Number of Responses per Respondent: Form FNS-905 is voluntary and State agencies are asked to complete the form at least once annually. However, State agencies may submit revisions weekly throughout the summer (approximately 17 weeks). On average, State agencies tend to submit 8 revisions in the course of a year.

Estimated Total Annual Responses: 424.

Estimated Time per Response: The estimated time of response is approximately 7.5 minutes (0.125 hours) for each response.

Estimated Total Annual Burden on Respondents: 53 hours. See the table below for estimated total annual burden for the state agencies.

Respondent	Estimated number respondent	Responses annually per respondent	Total annual responses (col. bxc)	Estimated avg. number of hours per response	Estimated total hours (col. dxe)

BILLING CODE 3411-15-P

DEPARTMENT OF COMMERCE

International Trade Administration

Antidumping or Countervailing Duty Order, Finding, or Suspended Investigation; Opportunity To Request Administrative Review

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

FOR FURTHER INFORMATION CONTACT:

Brenda E. Brown, Office of AD/CVD Operations, Customs Liaison Unit, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230, telephone: (202) 482-4735.

Background

Each year during the anniversary month of the publication of an antidumping or countervailing duty order, finding, or suspended investigation, an interested party, as defined in section 771(9) of the Tariff Act of 1930, as amended (the Act), may request, in accordance with 19 CFR 351.213, that the Department of Commerce (Commerce) conduct an administrative review of that antidumping or countervailing duty order, finding, or suspended investigation.

All deadlines for the submission of comments or actions by Commerce discussed below refer to the number of calendar days from the applicable starting date.

Respondent Selection

In the event Commerce limits the number of respondents for individual examination for administrative reviews initiated pursuant to requests made for the orders identified below, Commerce intends to select respondents based on U.S. Customs and Border Protection

(CBP) data for U.S. imports during the period of review. We intend to release the CBP data under Administrative Protective Order (APO) to all parties having an APO within five days of publication of the initiation notice and to make our decision regarding respondent selection within 21 days of publication of the initiation **Federal Register** notice. Therefore, we encourage all parties interested in commenting on respondent selection to submit their APO applications on the date of publication of the initiation notice, or as soon thereafter as possible. Commerce invites comments regarding the CBP data and respondent selection within five days of placement of the CBP data on the record of the review.

In the event Commerce decides it is necessary to limit individual examination of respondents and conduct respondent selection under section 777A(c)(2) of the Act:

In general, Commerce finds that determinations concerning whether particular companies should be “collapsed” (*i.e.*, treated as a single entity for purposes of calculating antidumping duty rates) require a substantial amount of detailed information and analysis, which often require follow-up questions and analysis. Accordingly, Commerce will not conduct collapsing analyses at the respondent selection phase of a review and will not collapse companies at the respondent selection phase unless there has been a determination to collapse certain companies in a previous segment of this antidumping proceeding (*i.e.*, investigation, administrative review, new shipper review or changed circumstances review). For any company subject to a review, if Commerce determined, or continued to treat, that company as collapsed with others, Commerce will assume that such companies continue to operate in the same manner and will collapse them for respondent selection purposes. Otherwise, Commerce will not collapse companies for purposes of respondent selection. Parties are requested to (a) identify which companies subject to review previously were collapsed, and (b) provide a citation to the proceeding
