SUPPLEMENTARY INFORMATION: NIFA is moving forward to implement Section 7212 of the Agriculture Improvement Act of 2018. This section “authorizes the Agency, in consultation with the Urban Agriculture and Innovative Production Advisory Committee established under section 222(b) of the Department of Agriculture Reorganization Act of 1994, to make competitive grants to support research, education, and extension activities for the purposes of facilitating the development of urban, indoor, and other emerging agricultural production, harvesting, transportation, aggregation, packaging, distribution and markets, including:

- (1) Assessing and developing strategies to remediate contaminated sites;
- (2) determining and developing the best production management and integrated pest management practices;
- (3) identifying and promoting the horticultural, social, and economic factors that contribute to successful urban, indoor, and other emerging agricultural production;
- (4) analyzing the means by which new agricultural sites are determined, including an evaluation of soil quality, condition of a building, or local community needs;
- (5) exploring new technologies that minimize energy, lighting systems, water, and other inputs for increased food production;
- (6) examining building material efficiencies and structural upgrades for the purpose of optimizing growth of agricultural products;
- (7) developing new crop varieties and agricultural products to connect to new markets; or
- (8) examining the impacts of crop exposure to urban elements on environmental quality and food safety.

It also authorizes the Agency to give priority consideration to grant proposals that involve—

- (1) the cooperation of multiple entities; or
- (2) States or regions with a high concentration of or significant interest in urban farms, rooftop farms, and indoor production facilities.

The intent of this Notice is to gather stakeholder input on the most urgent and highest priorities for research, education and extension (REE) funding authorized under the Urban, Indoor and other Emerging Agricultural Production Research, Education and Extension Initiative. NIFA seeks written feedback in response to the following two questions:

- (1) Considering agricultural production through marketing; which phase has the greatest and most urgent REE needs in developing urban and indoor agriculture?
 - (a) Agricultural Production
 - (b) Harvesting
 - (c) Transportation
 - (d) Aggregation
 - (e) Packaging
 - (f) Distribution
 - (g) Markets
- (2) Of the eight priorities listed below, which priority has the greatest and most urgent REE need in developing urban and indoor agriculture that is not being adequately addressed in other Federal REE programs:
 - (a) Assessing and developing strategies to remediate contaminated sites;
 - (b) determining and developing the best production management and integrated pest management practices;
 - (c) identifying and promoting the horticultural, social, and economic factors that contribute to successful urban, indoor, and other emerging agricultural production;
 - (d) analyzing the means by which new agricultural sites are determined, including an evaluation of soil quality, condition of a building, or local community needs;
 - (e) exploring new technologies that minimize energy, lighting systems, water, and other inputs for increased food production;
 - (f) examining building material efficiencies and structural upgrades for the purpose of optimizing growth of agricultural products;
 - (g) developing new crop varieties and agricultural products to connect to new markets; or
 - (h) examining the impacts of crop exposure to urban elements on environmental quality and food safety.

NIFA invests in Urban Agriculture research and education through its Beginning Farmers and Ranchers Development Program, AFRI Foundational Knowledge of Agriculture Production Systems, Specialty Crop Research Initiative, AFRI Small and Medium Sized Farms, Community Food Projects, and the Organic Agriculture Research and Extension Initiative.

Information on these programs and how they help address urban, indoor and emerging agricultural production priorities can be found in NIFA’s website through the following address: <https://nifa.usda.gov/program/uie-ag>.

Wooden Cabinets and Vanities and Components Thereof From the People's Republic of China: Antidumping Duty Order

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: Based on affirmative final determinations by the Department of Commerce (Commerce) and the International Trade Commission (ITC), Commerce is issuing an antidumping

duty order on wooden cabinets and vanities and components thereof (wooden cabinets and vanities) from the People's Republic of China (China).

DATES: Applicable April 21, 2020.

FOR FURTHER INFORMATION CONTACT:

Rachel Greenberg, AD/CVD Operations, Office V, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-0652.

SUPPLEMENTARY INFORMATION:

Background

In accordance with section 735(d) of the Tariff Act of 1930, as amended (the Act), and 19 CFR 351.210(c), Commerce published its affirmative final determination in the less-than-fair-value (LTFV) investigation of wooden cabinets and vanities from China.¹ On April 13, 2020, the ITC notified Commerce of its final determination that an industry in the United States is materially injured within the meaning of section 735(b)(1)(A)(i) of the Act by reason of LTFV imports of wooden cabinets and vanities from China.²

Scope of the Order

The products covered by this order are wooden cabinets and vanities from China. For a complete description of the scope of this order, see the Appendix to this notice.

Antidumping Duty Order

On April 13, 2020, in accordance with section 735(d) of the Act, the ITC notified Commerce of its final determination in this investigation, in which it found that an industry in the United States is materially injured within the meaning of section 735(b)(1)(A)(i) of the Act by reason of imports of wooden cabinets and vanities from China sold at LTFV. Therefore, in accordance with sections 735(c)(2) and 736 of the Act, Commerce is issuing this antidumping duty order. Because the ITC determined that imports of wooden cabinets and vanities from China are materially injuring a U.S. industry, unliquidated entries of such merchandise from China, entered or

withdrawn from warehouse for consumption, are subject to the assessment of antidumping duties.

Therefore, in accordance with section 736(b)(1) of the Act, Commerce will instruct U.S. Customs and Border Protection (CBP) to assess, upon further instruction by Commerce, antidumping duties equal to the amount by which the normal value of the wooden cabinets and vanities from China exceeds the export price (or constructed export price) of the subject merchandise, for all relevant entries of wooden cabinets and vanities from China which are entered, or withdrawn from warehouse, for consumption on or after October 9, 2019, the date of publication of the *Preliminary Determination*, but will not include entries occurring after the expiration of the provisional measures period and before the date of publication of the ITC's final affirmative determination under section 735(b) of the Act as further described below.³

Suspension of Liquidation

In accordance with section 736 of the Act, Commerce will instruct CBP to suspend liquidation of all appropriate entries of wooden cabinets and vanities from China as described in the Appendix to this notice which are entered, or withdrawn from warehouse, for consumption on or after the date of publication of the ITC's notice of final determination in the **Federal Register**. We will also instruct CBP to require, at the same time as importers would normally deposit estimated customs duties on the subject merchandise, a cash deposit of antidumping duties based on the rates listed below. These instructions suspending liquidation will remain in effect until further notice. The China-wide entity rate applies to all producers or exporters not specifically listed below. As stated in the *Final Determination*, Commerce made certain adjustments to the estimated weighted-average dumping margin for export subsidies from the companion countervailing duty investigation final determination to determine each of the cash deposit rates.⁴
