SUPPLEMENTARY INFORMATION: The City of San Francisco Public Works Department has requested a temporary change to the operation of the 3rd Street Drawbridge, mile 0.0, over China Basin, at San Francisco, CA. The drawbridge navigation span provides 7 feet vertical clearance above Mean High Water in the closed-to-navigation position. The draw opens on signal if at least one hour notice is given as required by 33 CFR 117.149. Navigation on the waterway is recreational.

The drawspan will be secured in the closed-to-navigation position from 6 a.m. to 2:30 p.m. on July 27, 2014 to allow the public to cross the bridge to participate in the scheduled San Francisco Marathon. This temporary deviation has been coordinated with the waterway users. No objections to the proposed temporary deviation were raised. The drawspan can be operated upon one hour advance notice for emergencies requiring the passage of waterway traffic.

Vessels able to pass through the bridge in the closed position may do so at any time. The bridge will be able to open for emergencies upon one hour advance notice and there is no immediate alternate route for vessels to pass. The Coast Guard will also inform the users of the waterways through our Local and Broadcast Notices to Mariners of the change in operating schedule for the bridge so that vessels can arrange their transits to minimize any impact caused by the temporary deviation.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the effective period of this temporary deviation. This deviation

from the operating regulations is authorized under 33 CFR 117.35.
