

Notices

Federal Register

Vol. 82, No. 79

Wednesday, April 26, 2017

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

April 21, 2017.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104–13. Comments are requested regarding (1) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments regarding this information collection received by May 26, 2017 will be considered. Written comments should be addressed to: Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), New Executive Office Building, 725—17th Street, NW., Washington, DC 20502. Commenters are encouraged to submit their comments to OMB via email to: OIRA_Submission@OMB.EOP.GOV or fax (202) 395–5806 and to Departmental Clearance Office, USDA, OCIO, Mail Stop 7602, Washington, DC 20250–7602. Copies of the submission(s) may be obtained by calling (202) 720–8958.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs

potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Foreign Agricultural Service

Title: Dairy Tariff-Rate Import Quota Licensing Program.

OMB Control Number: 0551–0001.

Summary of Collection: The Dairy Tariff-Rate Import Quota regulation (the Regulation) (7 CFR part 6.20–6.37) which governs the administration of the import licensing system applicable to most dairy products subject to tariff-rate quotas (TRQs). The importation of most cheese made from cow's milk and certain non-cheese dairy articles (butter, dried milks, and butter substitutes) are subject to TRQs and must be accompanied by an import license issued by the Department to enter at the lower tariff. Importers without licenses may enter these dairy articles, but are required to pay the higher tariff. The Foreign Agricultural Service (FAS) will collect information using several forms.

Need and Use of the Information: FAS will use the collected information in the administration of the tariff-rate import quota licensing system for certain dairy products and the issuance of licenses in accordance with the Regulation. If the information were collected less frequently, FSA would be unable to issue licenses on an annual basis in compliance with the Import Regulation.

Description of Respondents: Business or other-for-profit.

Number of Respondents: 700.

Frequency of Responses: Record keeping, Reporting: Annually.

Total Burden Hours: 479.

Ruth Brown,

Departmental Information Collection Clearance Officer.

BILLING CODE 3410–10–P

DEPARTMENT OF AGRICULTURE

Forest Service

Nez Perce-Clearwater National Forests, Palouse Ranger District; Idaho; Little Boulder Project

AGENCY: Forest Service, USDA.

ACTION: Notice of intent to prepare an environmental impact statement.

SUMMARY: The Little Boulder project was released for public scoping in November 2014. The anticipated National Environmental Policy Act (NEPA) analysis level at that time was an environmental assessment. Upon further environmental impact analysis, the responsible official decided to proceed with an environmental impact statement (EIS) to analyze and disclose any significant effects which may result from the proposed action. Those who submitted comments in response to the initial scoping request within the allotted timeframe already have standing to object. To establish standing to object, comments may still be submitted in response to this notice no later than 30 days from May 26, 2017 OR by providing comments during the 45-day comment period following distribution of the draft EIS.

DATES: The draft environmental impact statement is expected September 2017 and the final environmental impact statement is expected March 2018.

FOR FURTHER INFORMATION CONTACT: Stephanie Israel, NEPA Planner (North Zone), Nez Perce-Clearwater National Forests, (208) 476–8344 or sisrael@fs.fed.us.

Individuals who use telecommunication devices for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1–800–877–8339 between 8 a.m. and 8 p.m., Eastern Time, Monday through Friday.

SUPPLEMENTARY INFORMATION:

Purpose and Need for Action

The purpose of the Little Boulder project is to create conditions that are more resilient to disturbance by restoring white pine and other seral tree species and to initiate recovery of watershed function. Currently, grand fir and Douglas-fir tree species dominate the landscape within the proposed project area. The current species composition is creating intense competition for nutrients and ladder fuels in the drier, fire-dependent ecosystems. If left untreated, these conditions would lead to a decline in forest health and put future ecological, societal, and economical values at risk.

There is a need to initiate recovery of watershed function with management actions aimed at reducing long-term

sedimentation to streams and improving soil productivity. Nearly all of the fish-bearing streams in the Little Boulder project area are critical habitat for steelhead. A combination of various past management activities have resulted in channels with excess sediment, areas of bank instability, and decreased fisheries habitat. The proposed activities in the Little Boulder project would aim to improve future watershed conditions.

Proposed Action

The original proposed action identified has been modified based on additional field review, resource concerns, and scoping comments. Information about the original proposed action can be found on the project Web site at <http://prdp2fs.ess.usda.gov/project/?project=45225>. The current proposal, also identified as Alternative 2, would harvest timber from approximately 2,680 acres. Non-commercial fuels reduction treatments would occur on approximately 1,180 acres. Proposed activities would require construction of 5.2 miles of new roads, 9 miles of reconstruction, and 14.9 miles of road re-conditioning. 10.2 miles of temporary roads would be decommissioned after harvest.

Watershed improvements would include: Placing existing roads needed for future management into intermittent storage; improving channel and riparian function through woody debris and vegetation treatments; replacing undersized or deteriorated culverts; replacing existing Ruby Creek ford with a bridge or other aquatic organism passage structure; and decompacting existing skid trails and landings.

Possible Alternatives

Three alternatives are being developed in addition to the proposed action (Alternative 2) for the Little Boulder project: Alternative 1—No-action; Alternative 2—Proposed Action (preferred); Alternative 3—Existing Roads; Alternative 4—Openings Less Than 40 Acres in Size.

Responsible Official

Forest Supervisor, Nez Perce-Clearwater National Forests.

Nature of Decision To Be Made

The Responsible Official will determine whether to adopt the proposed action or another alternative, in whole or in part, and what mitigation measurements and management requirements will be implemented.

Scoping Process

This notice of intent initiates the scoping process which guides the development of the environmental impact statement. Comments submitted in a timely and appropriate response to the previous notification to prepare an environmental assessment were reviewed, considered, and already established standing to object.

It is important that reviewers provide their comments at such times and in such manner that they are useful to the agency's preparation of the environmental impact statement. Therefore, comments should be provided prior to the close of the comment period and should clearly articulate the reviewer's concerns and contentions.

Comments received in response to this solicitation, including names and addresses of those who comment, will be part of the public record for this proposed action. Comments submitted anonymously will be accepted and considered; however, anonymous comments will not provide the Agency with the ability to provide the respondent with subsequent environmental documents.

Dated: April 13, 2017.

Glenn P. Casamassa,
Associate Deputy Chief, National Forest System.

BILLING CODE 3411-15-P

DEPARTMENT OF AGRICULTURE

Forest Service

Revision of Land Management Plan for Gila National Forest; Counties of Catron, Grant, Hidalgo, and Sierra, New Mexico

AGENCY: Forest Service, USDA.

ACTION: Notice of intent to revise the Gila National Forest Land Management Plan and prepare an associated Environmental Impact Statement.

SUMMARY: As directed by the National Forest Management Act, the USDA Forest Service is revising the Gila National Forest's Land Management Plan (hereafter referred to as Forest Plan) through development of an associated National Environmental Policy Act (NEPA) Environmental Impact Statement (EIS). This notice describes the documents available for review and how to obtain them; summarizes the needs for change to the existing Forest Plan; provides information concerning public participation and collaboration,

including the process for submitting comments; provides an estimated schedule for the planning process, including the time available for comments, and includes the names and addresses of agency contacts who can provide additional information.

DATES: Comments concerning the Needs for Change and Proposed Action provided in this notice will be most useful in the development of the revised plan and draft EIS if received by June 12, 2017. The agency expects to release a draft revised plan and draft EIS, developed through a collaborative public engagement process by spring 2018, and a final revised plan and final EIS by summer/fall 2019.

ADDRESSES: Send written comments to Gila National Forest, Attn: Plan Revision, 3005 E. Camino del Bosque, Silver City, NM 88061. Comments may also be sent via email to gilaplan@fs.fed.us.

FOR FURTHER INFORMATION CONTACT: Matt Schultz, Forest Planner, Gila National Forest, 575-388-8280. Individuals who use telecommunication devices for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339 between 8 a.m. and 8 p.m., Eastern Time, Monday through Friday. More information on our forest plan revision process can be found on our Web site at <http://go.usa.gov/h88k>.

SUPPLEMENTARY INFORMATION: The National Forest Management Act (NFMA) of 1976 requires that every National Forest System (NFS) unit develop a forest plan. On April 9, 2012, the Forest Service finalized its land management planning rule (2012 Planning Rule, 36 CFR 219), which describes requirements for the planning process and the content of the forest plans. Forest plans describe the strategic direction for management of forest resources for ten to fifteen years, and are adaptive and amendable as conditions change over time. Under the 2012 Planning Rule, the assessment of ecological, social, cultural, and economic conditions and trends is the first stage of the planning process (36 CFR 219.6). The second stage, formal plan revision, involves the development of our forest plan in conjunction with the preparation of an Environmental Impact Statement under the National Environmental Policy Act (NEPA). The third stage of the process is monitoring and feedback, which is ongoing over the life of the revised forest plans.

The Gila National Forest has completed its assessment pursuant to 2012 Forest Planning Rule. The assessment was developed with public participation and includes an evaluation
