### Summary

1. On November 19, 2014, the Satellite Industry Association (SIA) filed a motion to extend the comment deadline in the above-captioned proceeding from December 16, 2014 until January 15, 2015. SIA also requested that the deadline for filing reply comments be extended from January 15, 2015 to February 17, 2015. SIA asserts that analyzing bands for spectrum sharing with widely-deployed mobile wireless services requires extensive analysis and review and notes that the Commission is seeking comment on multiple bands in which satellite operations are authorized. According to SIA, each of these bands is unique and requires an analysis of current and future satellite operations. James E. Whedbee supports the SIA Motion.

2. It is the general policy of the Commission that extensions of time shall not be routinely granted. Under these circumstances, however, we agree that an extension of time to file comments and reply comments is warranted to ensure that the Commission obtains a complete and thorough record in response to the NOI. The NOI is the first step in a process to examine the use of new, innovative technologies that could enable the use of frequencies above 24 GHz for mobile services. The NOI seeks comment on a wide variety of novel technical, policy and legal issues related to the possible use of bands above 24 GHz for mobile services. We conclude that a short extension of time is warranted to enable interested parties sufficient opportunity to review and respond to the complex issues raised by the NOI, to ultimately help the Commission “discern what frequency bands above 24 GHz would be most suitable for mobile services, and to begin developing a record on mobile service rules and a licensing framework for mobile services in those bands.”

3. Accordingly, pursuant to section 4(i) of the Communications Act of 1934, as amended, and § 1.46 of the

Commission’s rules, we extend the deadline for filing comments until January 15, 2015. We also extend the deadline for filing reply comments until February 17, 2015.

**SUPPLEMENTARY INFORMATION:** This is a summary of the Commission’s document in PS Docket No. 07-114, DA 14-1680, released on November 20, 2014. This document is available to the public at <http://www.fcc.gov/document/fcc-seeks-comment-indoor-location-accuracy-roadmap>.

### Synopsis

1. By this document the Bureau seeks comment on the “Roadmap for Improving E911 Location Accuracy” (Roadmap), filed in the E911 Location Accuracy proceeding by APCO, NENA, AT&T Mobility, Sprint, T-Mobile USA, and Verizon (Parties).

2. The Roadmap was filed in response to the *Third Further Notice of Proposed Rulemaking* in this proceeding, in which the Commission proposed measures and timeframes to improve location accuracy for 911 calls originating indoors, including proposals related to horizontal and vertical location of callers. The Commission also “encourage[d] industry, public safety entities, and other stakeholders to work collaboratively to develop alternative proposals for our consideration.” The Parties assert that the Roadmap “marks a new course using indoor technologies to deliver a ‘dispatchable location’ for indoor 9-1-1 calls” and that it “contrasts with current and proposed outdoor technologies that provide estimates of location and face challenges with indoor location accuracy.” The Parties further state that “the Roadmap commits to meaningful improvements and FCC-enforceable timeframes to deliver effective location solutions.” We also note that some public safety organizations have submitted *ex parte* filings critical of the Roadmap and supportive of the original proposals in the *Third Further Notice*.

3. While the Commission has already received numerous comments and compiled an extensive record in this proceeding, we believe that seeking expedited comment on the Roadmap is appropriate in light of the important public safety issues addressed in this proceeding and in order to ensure a complete and comprehensive record.

Accordingly, we seek comment on whether the Roadmap presents a reasonable alternative, in whole or in part, to the proposals set forth in the *Third Further Notice*. We urge commenters to address the specific elements of the Roadmap and whether the Commission should incorporate each such element in whole, in part, or with modifications, into the rules that it ultimately adopts in this proceeding. We also seek comment on the potential applicability of the Roadmap elements to wireless carriers other than the Roadmap signatories.

## Procedural Matters

### A. Ex Parte Presentations

4. This proceeding has been designated as a “permit-but-disclose” proceeding in accordance with the Commission’s *ex parte* rules. 47 CFR 1.1200 *et seq.* Persons making *ex parte* presentations must file a copy of any written presentation or a memorandum summarizing any oral presentation within two business days after the presentation (unless a different deadline applicable to the Sunshine period applies). Persons making oral *ex parte* presentations are reminded that memoranda summarizing the presentation must (1) list all persons attending or otherwise participating in the meeting at which the *ex parte* presentation was made, and (2) summarize all data presented and arguments made during the presentation. If the presentation consisted in whole or in part of the presentation of data or arguments already reflected in the presenter’s written comments, memoranda or other filings in the proceeding, the presenter may provide citations to such data or arguments in his or her prior comments, memoranda, or other filings (specifying the relevant page and/or paragraph numbers where such data or arguments can be found) in lieu of summarizing them in the memorandum. Documents shown or given to Commission staff during *ex parte* meetings are deemed to be written *ex parte* presentations and must be filed consistent with § 1.1206(b). In proceedings governed by § 1.49(f) or for which the Commission has made available a method of electronic filing, written *ex parte* presentations and memoranda summarizing oral *ex parte* presentations, and all attachments thereto, must be filed through the electronic comment filing system available for that proceeding, and must be filed in their native format (e.g., .doc, .xml, .ppt, searchable .pdf). Participants in this proceeding should familiarize

themselves with the Commission’s *ex parte* rules.

#### Endangered and Threatened Species; Designation of Critical Habitat for the Arctic Ringed Seal

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Proposed rule; withdrawal and reproposal.

**SUMMARY:** On December 3, 2014, we, NMFS, published in the **Federal Register** a proposal to designate critical habitat for the Arctic subspecies (*Phoca hispida hispida*) of the ringed seal (*Phoca hispida*) under the Endangered Species Act (ESA). Due to a clerical error, that document contained numerous errors. To avoid confusion, we are withdrawing that proposed rule and repropose the correct document through this action. Specifically, we propose to designate one specific area of marine habitat in the northern Bering, Chukchi, and Beaufort seas. We are soliciting comments from the public on all aspects of the proposal, including
