

legislation would have applied to all kinds of copyrighted works, published or unpublished, from photographs to manuscripts to music and books. Please comment on the continued viability of the above framework in the case of occasional uses of orphan works. If there are other possible approaches, including approaches that might best be described as interim approaches, please explain the benefits and supporting legal authority in sufficient detail.

2. Orphan Works in the Context of Mass Digitization

The Office's Orphan Works Report did not analyze the issue of mass digitization in detail, and the subsequent 2008 proposed legislation did not squarely address the possibility of systematic or en masse copying, display, or distribution. Please comment on potential orphan works solutions in the context of mass digitization. How should mass digitization be defined, what are the goals and what, therefore, is an appropriate legal framework that is fair to authors and copyright owners as well as good faith users? What other possible solutions for mass digitization projects should be considered?

If there are any pertinent issues not discussed above, the Office encourages interested parties to raise those matters in their comments. In addition, the Office is considering and hereby provides notice that it may convene one or more roundtables or formal hearings on the matters raised above in 2013. The Office may also publish one or more additional Notices of Inquiry.
