SUPPLEMENTARY INFORMATION: The portion of the site to be deleted from the NPL is: The soil, sediment, surface water, surficial aquifer, and the intermediate aquifer of this Site with the exception of a limited area (5000–8000 square feet) of the intermediate aquifer below the 1C clay in the vicinity of monitoring wells IMW–01B, MW–128, and OW–143 of the Townsend Saw Chain Co. Superfund Site (Site) located in Pontiac, South Carolina. A Notice of Intent for Partial Deletion for this Site was published in the **Federal Register** 84 FR 35054, on July 22, 2019.

The closing date for comments on the Notice of Intent for Partial Deletion was August 21, 2019. No public comments were received and EPA will proceed with the partial deletion.

EPA maintains the NPL as the list of sites that appear to present a significant risk to public health, welfare, or the

environment. Deletion of a site from the NPL does not preclude further remedial action. Whenever there is a significant release from a site deleted from the NPL, the deleted site may be restored to the NPL without application of the hazard ranking system. Deletion of portions of a site from the NPL does not affect responsible party liability, in the unlikely event that future conditions warrant further actions.

National Oil and Hazardous Substances Pollution Contingency Plan; National Priorities List: Deletion of the Intel Corp. (Santa Clara III) Superfund Site
AGENCY: Environmental Protection Agency (EPA).
ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) Region 9 announces the deletion of the Intel Corp. (Santa Clara III) Superfund Site (Site) located in Santa Clara, California, from the National Priorities List (NPL). The NPL,

promulgated pursuant to section 105 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) of 1980, as amended, is an appendix of the National Oil and Hazardous Substances Pollution Contingency Plan (NCP). EPA and the State of California, through the San Francisco Regional Water Quality Control Board, have determined that all appropriate response actions under CERCLA have been completed. However, the deletion of the Site does not preclude future actions under Superfund.
DATES: This action is effective September 24, 2019.
ADDRESSES: EPA has established a docket for this action under Docket Identification No. EPA–HQ–SFUND–1986–0005. All documents in the docket are listed on the website <http://www.regulations.gov>. Docket materials are also available at the site information repository: Superfund Records Center, 75 Hawthorne Street, Room 3110, San

Francisco, California, Hours: 8:00 a.m.–4:00 p.m.; (415) 947–8717.
FOR FURTHER INFORMATION CONTACT: Holly Hadlock, Superfund Project Manager, U.S. EPA, Region 9, (SFD–7–3), 75 Hawthorne Street, San Francisco, CA 94105, (415) 972–3171, email: hadlock.holly@epa.gov.
SUPPLEMENTARY INFORMATION: The site to be deleted from the NPL is the Intel Corp. (Santa Clara III) Superfund Site, Santa Clara, California. A Notice of Intent to Delete was published in the **Federal Register** (84 FR 37195–37198) on July 31, 2019. The closing date for comments was August 30, 2019. EPA received one public comment opposing its decision to delete the Site from the NPL. The commenter opposed the deletion because of the concern that contamination could return. EPA believes the deletion is appropriate because the applicable NPL deletion criterion established by the NCP has been met: The responsible party, Intel Corporation, has implemented all

appropriate response actions for groundwater set forth in the 2010 amendment to the 1990 Record of Decision, which selected the remedy for contaminated groundwater at the Site. Confirmation sampling indicates that all contaminants of concern are below state and federal drinking water standards. Since there is no ongoing source of contamination at the Site, EPA is confident that the groundwater at the Site will continue to meet State and Federal drinking water standards in the future. EPA prepared a responsiveness summary and placed it in both the docket at www.regulations.gov (EPA-HQ-SFUND-1986-0005) and in the repository listed above.

EPA maintains the NPL as the list of sites that appear to present a significant risk to public health, welfare, or the environment. Deletion of a site from the NPL does not preclude further remedial action. Whenever there is a significant release from a site deleted from the NPL, the deleted site may be restored to the NPL without application of the hazard ranking system. Deletion of a site from the NPL does not affect responsible party liability, in the unlikely event that future conditions warrant further actions.

National Oil and Hazardous Substances Pollution Contingency Plan; National Priorities List: Partial Deletion of the Escambia Wood—Pensacola Superfund Site

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) Region 4 announces the deletion of 50 acres of the Escambia Wood—Pensacola Superfund Site (Site) located in Pensacola, Florida, from the National Priorities List (NPL). The NPL, promulgated pursuant to section 105 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) of 1980, as amended, is an appendix of the National Oil and Hazardous Substances Pollution Contingency Plan (NCP). This partial deletion pertains to 50 acres of former residential property in the former neighborhoods of Oak Park, Escambia Arms, Herman & Pearl and Clarinda Triangle, part of Operable Unit One (soils). The remaining areas of Operable Unit One (about 50 acres) and Operable Unit Two (groundwater) will remain on the NPL and are not being considered for deletion as part of this action. The EPA and the State of Florida, through the Florida Department of Environmental Protection (FDEP), have determined that all appropriate response actions under CERCLA, other than five-year reviews and operation and maintenance, have been completed. However, this partial deletion does not preclude future actions under Superfund.

DATES: This action is effective September 24, 2019.

ADDRESSES: EPA has established a docket for this action under Docket Identification No. EPA-HQ-SFUND-1994-0001. All documents in the docket are listed on the <http://www.regulations.gov> website. SUPPLEMENTARY INFORMATION: The portion of the site to be deleted from the NPL is: 50 Acres of former residential property (in the former neighborhoods of Oak Park, Escambia Arms, Herman & Pearl and Clarinda Triangle) of the Escambia Wood—Pensacola Superfund Site, Pensacola, Florida. A Notice of Intent for Partial Deletion for this Site was published in the **Federal Register** (84 FR 35059) on July 22, 2019.

The closing date for comments on the Notice of Intent for Partial Deletion was August 21, 2019. No adverse public comments were received, and EPA will proceed with the partial deletion.
