Title of Proposal: Mortgage Record Change.

Description of the need for the information and proposed use: The Mortgage Record Change information is used by FHA-approved mortgagees to comply with HUD requirements for reporting the sale of a mortgage between investors, the transfer of the mortgage servicing responsibility, and a change in

mortgagors, as appropriate. The information required is used to update HUD's Insurance System and other related systems. Current data is necessary to establish mortgage premium liability, forward annual premium mortgage data to the appropriate mortgagee/servicer, and maintain premium receivables and program data regarding investors/servicer activity. Without the required data, the premium collection/monitoring function would be severely impeded and program data would be unreliable. This information is essential because HUD does case level accounting in recording premium payments by mortgagees.

Estimation of the total numbers of hours needed to prepare the information collection including number of respondents, frequency of response, and hours of response: The public reporting burden for this collection of information is estimated to be 160,025 hours annually. An estimated 2,600 respondents file 1,600,025 responses annually, and the time needed to provide the information is 6 minutes on average.
