III. Loss of Active Ingredients

Unless the request for cancellation is withdrawn, the pesticide active ingredient listed in Table 3 below will no longer appear in any registered products. TABLE 3—ACTIVE INGREDIENT DISAPPEARING AS A RESULT OF REGISTRANT'S REQUEST TO CANCEL

EPA Company Number	Company Name and Address

IV. What is the Agency's Authority for Taking this Action?

Section 6(f)(1) of FIFRA provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be canceled. FIFRA further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**. Thereafter, the Administrator may approve such a request.

V. Procedures for Withdrawal of Request

Registrants who choose to withdraw a request for cancellation must submit such withdrawal in writing to the person listed under **FOR FURTHER INFORMATION CONTACT**, postmarked before either of the comment periods listed under **DATES**. This written withdrawal of the request for cancellation will apply only to the applicable FIFRA section 6(f)(1) request listed in this notice. If the product(s) have been subject to a previous cancellation action, the effective date of cancellation and all other provisions of any earlier cancellation action are controlling. The withdrawal request must also include a commitment to pay any reregistration fees due, and to fulfill any applicable unsatisfied data requirements.

VI. Provisions for Disposition of Existing Stocks

The effective date of cancellation will be the date of the cancellation order. The orders effecting these requested cancellations will generally permit a registrant to sell or distribute existing stocks for 1-year after the date the cancellation request was received. This policy is in accordance with the Agency's statement of policy as prescribed in the **Federal Register** of June 26, 1991 (56 FR 29362) (FRL–3846–4). Exceptions to this general rule will be made if a product poses a risk concern, or is in noncompliance with reregistration requirements, or is subject to a Data-Call-In. In all cases, product-specific disposition dates will be given in the cancellation orders.

Existing stocks are those stocks of registered pesticide products which are currently in the United States and

which have been packaged, labeled, and released for shipment prior to the effective date of the cancellation action. Unless the provisions of an earlier order apply, existing stocks already in the hands of dealers or users can be distributed, sold, or used legally until they are exhausted, provided that such further sale and use comply with the EPA approved label and labeling of the affected product. Exception to these general rules will be made in specific cases when more stringent restrictions on sale, distribution, or use of the products or their ingredients have already been imposed, as in a Special Review action, or where the Agency has identified significant potential risk concerns associated with a particular chemical.

1,1,2-Trichloroethane Tier I Program Review Testing; Notice of Availability and Solicitation of Comment

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: Under section 4 of the Toxic Substances Control Act (TSCA), EPA issued a testing consent order that incorporated an enforceable consent agreement (ECA) relating to 1,1,2-trichloroethane (TCE). The companies subject to this ECA agreed to conduct toxicity testing, develop a computational dosimetry model for route-to-route extrapolations, and develop pharmacokinetics and mechanistic testing data that are intended to satisfy the toxicological data needs for TCE identified in a TSCA section 4 proposed test rule for a number of hazardous air pollutant chemicals. This notice announces that EPA is starting the Program Review component of the TCE ECA alternative testing program, and solicits comment on data received under the Tier I Program Review testing segment of the TCE ECA. Comments are expected to inform EPA's decision on whether or

not additional data and/or model development are needed before Tier II testing and computational dosimetry modeling for route-to-route extrapolations proceed for the Tier II endpoints listed in the TCE ECA.

DATES: Comments, identified by docket ID number OPPT-2002-0056, must be received on or before November 15, 2002.

ADDRESSES: Comments may be submitted electronically, by mail, or through hand delivery/courier. Follow the detailed instructions as provided in Unit I. of the **SUPPLEMENTARY INFORMATION**.
