SUPPLEMENTARY INFORMATION:

I. Background

The Department of Homeland Security recently updated the organizational structure nomenclatures by revising the term "Organizational Element" and replacing it with "Component". This is an internal Department organizational change not requiring public comment. This technical amendment addresses the change in nomenclature for the HSAR published as an Interim rule, (68 FR 67867), and the Final rule (71 FR 25759) by including the present terminology for the Department. In addition, there are a few other minor editorial corrections to the HSAR.

List of Fisheries for 2006

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Department of Commerce.

ACTION: Final rule.

SUMMARY: The National Marine Fisheries Service (NMFS) is publishing its final List of Fisheries (LOF) for 2006, as required by the Marine Mammal Protection Act (MMPA). The final LOF for 2006 reflects new information on interactions between commercial fisheries and marine mammals. NMFS must categorize each commercial fishery on the LOF into one of three categories under the MMPA based upon the level of serious injury and mortality of marine mammals that occurs incidental to each fishery. The categorization of a fishery in the LOF determines whether participants in that fishery are subject to certain provisions of the MMPA, such as

registration, observer coverage, and take reduction plan requirements.

DATES: This final rule is effective September 21, 2006.

The California sardine purse seine fishery, the Chesapeake Bay inshore gillnet fishery, and the Mid-Atlantic menhaden purse seine fishery are considered to be Category II fisheries on September 21, 2006, and are required to comply with all requirements of Category II fisheries (i.e., complying with applicable registration requirements, complying with applicable take reduction plan requirements, and carrying observers, if requested) on that date.
