I. Introduction

A. The 1998 Agreement

The U.S. became the first signatory to the United Nations/Economic Commission for Europe (UN/ECE) Agreement Concerning the Establishing of Global Technical Regulations for Wheeled Vehicles, Equipment and Parts Which Can Be Fitted And/or Be Used on Wheeled Vehicles (the "Agreement"). The 1998 Agreement entered into force on August 28, 2000. The Agreement provides for the establishment of global technical regulations regarding wheeled vehicle safety, environmental performance, energy sources and theft prevention.

B. Purpose of and Need for 1998 Agreement

The decision of the U.S. to become a Contracting Party to the 1998 Agreement and participate in a global regulation development process is a critical step toward a cooperative worldwide identification of best safety, environmental and energy practices.

Becoming a Contracting Party to the 1998 Agreement accomplishes several purposes for the U.S. and the EPA in particular. It gives the U.S. a vote in the establishment of voluntary global environmental regulations for wheeled vehicles, equipment and parts under the United Nations. Such participation enables the U.S. to take a leading role in the design and development of globally harmonized mobile source environmental regulations that can be adopted worldwide. Further, the 1998 Agreement ensures that U.S. mobile source regulatory standards will be considered in any effort to develop such harmonized global technical regulations for mobile sources.

C. Purpose of this Notice

There are three main purposes of this notice. First, it announces the procedures that EPA intends to follow to ensure that its activities under the 1998 Agreement are open and transparent to the public. Second, it specifies the priorities that will guide the Agency during its participation in activities under the 1998 Agreement. One of these priorities is to promote and establish environmental standards for mobile sources that reflect the best environmental practices around the world. Lastly, the notice announces a public workshop on March 19, 2001 at which these issues will be discussed with interested stakeholders.
