[Project No. 2114-003 Washington]

Public Utility District No. 2 of Grant
County; Notice of Availability of Draft
Environmental Assessment and
Solicitation of Comments

August 14, 2002.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's regulations, 18 CFR part 380 (Order No. 486, 52 FR 47910), the Office of Energy Projects (OEP) has prepared a draft Environmental Assessment (DEA) of an Offer of Settlement (OS) and Memorandum of Agreement (MOA) that propose, as part of a license amendment, spill measures for enhancing the downstream passage survival and passage efficiency of outmigrating anadromous salmonid juveniles at the Priest Rapids Project in Grant County, Washington. Part of the project occupies 3,051.92 acres of Federal lands administered by the Bureau of Land Management, Department of Energy, Department of Army, Bureau of Reclamation, and the U.S. Fish and Wildlife Service.

The DEA contains the staff's analysis of the potential environmental impacts of the proposed amendment and concludes that approval of Grant's proposed amendment or a staff alternative would not constitute a major federal action significantly affecting the quality of the human environment.

A copy of the DEA is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's website at <http://www.ferc.gov> using the "FERRIS" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, call (202) 502-8222 or for TTY, (202) 208-1659.

Any comments should be filed within 30 days from the date of this notice and should be addressed to Magalie R. Salas, Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426. Please affix Project No. 2114-003 to all comments. Comments may be filed electronically via the Internet in lieu of paper. The Commission strongly encourages electronic filings. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site (<http://www.ferc.gov>) under the "e-Filing" link. The Commission strongly encourages electronic filings.

For further information, contact Bob Easton at (202) 502-6045.

k. *Description of Request*: For the current water year, Nebraska Public Power District (NPPD) requests the Commission to allow for the diversion of up to 20,000 additional acre-feet (af) of storage water for surface water irrigation purposes in the Gothenburg, Dawson, and Kearney canals. Currently, NPPD is limited to 45,070 af as required by article 403 of the license. At this time, NPPD states western and south-central Nebraska is under severe

drought conditions which necessitates this request. The NPPD included with the filing an agreement with Central Nebraska Public Power and Irrigation District [licensee for the Kingsley Dam Project (FERC No. 1417)], dated July 30, 2002, in which Central has the right to require 'repayment' of the water next year or other year through 2007. The NPPD consulted with and received concurrence from the Nebraska Games and Parks Commission and the U.S. Fish and Wildlife Service. Other entities notified include the Nebraska Audubon Society and the Platte River Whooping Crane Maintenance Trust. On August 9, 2002, the Commission granted NPPD's request, but reserved authority to require changes in operation based upon comments received from this notice.
