

year of Acid Rain Program or NO_x Budget Program data are available. Ozone season heat inputs used for the ozone season allocation are from the data reported under the Acid Rain Program, OTC NO_x Budget Program, and NO_x SIP Call NO_x Budget Trading Program, if available, in Table 8. Otherwise EIA data in Table 7 or source-provided data in Table 9 were used.

6. Is the EPA Requesting Objections to These Data?

EPA is not requesting objections to the data in the data tables in this NODA. This action constitutes a final action for determining the CAIR FIP NO_x allowance allocations for existing units for 2009–2014.

7. What Data Is the EPA Making Available?

EPA has used the best data currently available to develop an inventory of existing units that currently are potentially covered by the CAIR FIPs and to calculate each existing unit's allowance allocations for 2009 through 2014. Through the NODA, EPA is making available to the public, including unit owners and operators, the data used in developing the inventory of potential existing CAIR units, the heat input and fuel type data and resulting baseline heat inputs used in the allocation calculations, and the allocations resulting from such calculations.

As discussed above, the inventory of existing potential CAIR units, and the data on which the inventory is based, are final for purposes of determining what units should be allocated allowances in this NODA and are not final for purposes of future NODAs concerning future allocations and for purposes of determining whether a unit is subject to the requirements of the CAIR FIPs.⁷ Further, the heat input and fuel type data and resulting baseline heat inputs used in this NODA are final for purposes of determining CAIR NO_x FIP allowances for 2009–2014. EPA intends to use, for the units in the inventory in this NODA, these data (including the baseline heat inputs) in calculating allocations in future NODA addressing future years. These data include: EPA heat input and fuel type data under the Acid Rain Program for the years 2000 through 2004, under the NO_x Budget Program (NBP) for 2000 through 2002 for Ozone Transport Commission (OTC) units, and under the NO_x Budget Trading Program for 2003 and 2004 for units under the NO_x SIP Call; and heat input and fuel data

obtained in EIA databases for units that are not under these programs. The 2009–2014 allocations in the NODA, calculated using these data, are also final.

In particular, this action makes available to the public: NO_x annual and NO_x ozone season allocations for individual units in CAIR States for the FIP; the adjusted heat input values for each unit for 2000 through 2004; the baseline heat inputs used to calculate the allocations; the other data used to include units in, or exclude units from, the inventory of existing potential CAIR units for which allocations are calculated; and objector data received during the objection period that were used in the final inventory and allowance determinations for units.

In particular, EPA is making the following data available:

- EIA Annual Heat Input: EIA data were used to obtain heat input and fuel type data for those units that are subject to the CAIR rule, but are not reporting annually under the Acid Rain Program, OTC NO_x Budget Program, or the NO_x SIP Call NO_x Budget Trading Program.
- EIA Ozone Season Heat Input.
- EPA Acid Rain Program Annual Heat Input.
- EPA Acid Rain Program, OTC NO_x Budget Program, and NO_x SIP Call NO_x Budget Trading Program Ozone Season Heat Input.
- Unit NO_x Annual Allowance Allocation Table.
- Unit NO_x Ozone Season Allocation Table.
- Objector data that were used in inventory and the final allocations.

8. Where Can I Get the Data Discussed in This NODA?

Tables 1 through 9, which include the allowance allocations, baseline heat input, adjusted heat input, and fuel type data, are available in an Excel file titled “Final Data for EGU NO_x Annual and NO_x Ozone Season Allocations for the Clean Air Interstate Rule Federal Implementation Plan Trading Programs (2009 through 2014 allowance allocations) on the CAMD Web site at <http://www.epa.gov/airmarkets/cair/NODA>. The “NODA” link will open a Web page which contains this excel file, along with the NODA, Technical Support Document, Response to Objections Document, and copies of the applicability determinations made in connection with this NODA in PDF format. The NODA is titled “Final Notice of Data Availability for EGU NO_x Annual and NO_x Ozone Season Allocations for the Clean Air Interstate Rule Federal Implementation Plan Trading Program (2009 through 2014

allowance allocations).” The TSD is titled “Data Field Description for the CAIR FIP NO_x Annual and NO_x Ozone Season Allocation Tables (2009 through 2014 allowance allocations).” The Response to Objections document is titled “Response to the Objections for the Notice of Data Availability (NODA), Proposed Allocation of NO_x Allowances under the Clean Air Interstate Rule (CAIR) Federal Implementation Plan (FIP).” In addition, these files are in the CAIR FIP Docket (Docket ID no. EPA–HQ–OAR–2004–0076).

Other data used in developing the inventory of potential existing CAIR units can be found on the EIA Web site through the link given in section 4 of this NODA.
