

individuals were removed from an unknown location in Pueblo County, CO, by a private citizen. The human remains were discovered in the estate of a private individual and turned over to the Pueblo Police Department who ruled out forensic interest. On July 25, 2016, the Pueblo Police Department notified the Office of the State Archaeologist and transferred the human remains to History Colorado. The human remains (OAHF 318) were determined to be of Native American ancestry and of indeterminate sex and age. No known individuals were identified. No associated funerary objects are present.

At the time of the excavation and removal of these human remains, the land from which the human remains were removed was not the tribal land of any Indian tribe. In January and February 2017, History Colorado consulted with all Indian tribes who are recognized as aboriginal to Pueblo County, CO, where these Native American human remains were removed. These tribes are the Arapaho Tribe of the Wind River Reservation, Wyoming; Cheyenne and Arapaho Tribes, Oklahoma (previously listed as the Cheyenne-Arapaho Tribes of Oklahoma); and the Northern Cheyenne Tribe of the Northern Cheyenne Indian Reservation, Montana. None of these Indian tribes agreed to accept control of the human remains. The aboriginal land tribes requested in writing that the human remains be transferred according to the *Process for Consultation, Transfer and Reburial of Culturally*

Unidentifiable Native American Human Remains and Associated Funerary Objects Originating From Inadvertent Discoveries on Colorado State and Private Lands (Process) (2008, unpublished, on file with the Colorado Office of Archaeology and Historic Preservation). Consultation with the additional tribes listed under Consultation in this notice was conducted with tribes in the Great Plains Consultation Region of the *Process* to determine disposition. Under the *Process*, the Southern Ute Indian Tribe of the Southern Ute Reservation, Colorado, and the Ute Mountain Tribe of the Ute Mountain Reservation, Colorado, New Mexico & Utah agreed to accept transfer of the human remains.

History Colorado, in partnership with the Colorado Commission of Indian Affairs, Southern Ute Indian Tribe of the Southern Ute Reservation, Colorado, and the Ute Mountain Ute Tribe (previously listed as the Ute Mountain Tribe of the Ute Mountain Reservation, Colorado, New Mexico & Utah), conducted tribal consultations among the tribes with ancestral ties to the State

of Colorado to develop the process for disposition of culturally unidentifiable Native American human remains and associated funerary objects originating from inadvertent discoveries on Colorado State and private lands. As a result of the consultation, the *Process* was developed.

The Native American Graves Protection and Repatriation Review Committee (Review Committee) is responsible for recommending specific actions for disposition of culturally unidentifiable human remains. On November 3–4, 2006, the *Process* was presented to the Review Committee for consideration. A January 8, 2007, letter on behalf of the Review Committee from the Designated Federal Officer transmitted the provisional authorization to proceed with the *Process* upon receipt of formal responses from the Jicarilla Apache Nation, New Mexico, and the Kiowa Indian Tribe of Oklahoma, subject to forthcoming conditions imposed by the Secretary of the Interior. On May 15–16, 2008, the responses from the Jicarilla Apache Nation, New Mexico, and the Kiowa Indian Tribe of Oklahoma were submitted to the Review Committee. On September 23, 2008, the Assistant Secretary for Fish and Wildlife and Parks, as the designee for the Secretary of the Interior, transmitted the authorization for the disposition of culturally unidentifiable human remains according to the *Process* and NAGPRA, pending publication of a Notice of Inventory Completion in the **Federal Register**. This notice fulfills that requirement.

43 CFR 10.11 was promulgated on March 15, 2010, to provide a process for the disposition of culturally unidentifiable Native American human remains recovered from tribal or aboriginal lands as established by the final judgment of the Indian Claims Commission or U.S. Court of Claims, a treaty, Act of Congress, or Executive Order, or other authoritative governmental sources. As there is no evidence to suggest that the human remains originated from tribal land and the tribes with aboriginal land did not wish to accept transfer of control, the human remains listed in this notice are eligible for transfer of control under the *Process*.

SUPPLEMENTARY INFORMATION: Notice is here given in accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3005, of the intent to repatriate cultural items under the control of the Museum of Northern Arizona, Flagstaff, AZ, that meet the definition of unassociated funerary objects under 25 U.S.C. 3001.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 25 U.S.C. 3003(d)(3). The determinations in this notice are the sole responsibility of the museum, institution, or Federal agency that has control of the Native American cultural items. The National Park Service is not responsible for the determinations in this notice.

History and Description of the Cultural Items

In 1978 and 1979, 105 cultural items were removed from the Cashion site (NA14690) in Maricopa County, AZ, during authorized archeological investigations conducted by the Museum of Arizona on behalf of the Arizona Nuclear Power Project, prior to the construction of a wastewater conveyance system that was to provide water to cool the Palo Verde Nuclear Generating Station. The 105 unassociated funerary objects are 14 pottery and ceramic fragments, 30 jewelry items and fragments, 2 pollen samples, 2 faunal bone fragments, 51 projectile points, and 6 tools and implements. The cultural items are associated with seven features identified

by the field archeologists as secondary human cremations. No human bone was recovered.

Based on archeological evidence, geographic location, and object classification, these cultural items were made by Native Americans. Archeological evidence indicates that the Cashion site (NA14690), within the Salt River area of central Arizona, was occupied during the period A.D. 700–900 by the Hohokam people, for whom cremation was a common mortuary practice. Hopi and Zuni oral traditions also indicate that segments of the prehistoric Hohokam population migrated to areas occupied by the ancestors of the Hopi and Zuni and were assimilated into the resident populations. Archeological, historical, and oral tradition evidence indicate that there is a relationship of shared group identity between the Hohokam people and the present-day Piman and O'odham cultures, represented by the Ak-Chin Indian Community of the Maricopa (Ak Chin) Indian Reservation, Arizona; Gila River Indian Community of the Gila River Indian Reservation, Arizona; Hopi Tribe of Arizona; Salt River Pima-Maricopa Indian Community of the Salt River Reservation, Arizona; Tohono O'odham Nation of Arizona; and Zuni Tribe of the Zuni Reservation, New Mexico.

Determinations Made by the Museum of Northern Arizona

Officials of the Museum of Northern Arizona have determined that:

- Pursuant to 25 U.S.C. 3001(3)(B), the 105 cultural items described above are reasonably believed to have been placed with or near individual human remains at the time of death or later as part of the death rite or ceremony, and are believed, by a preponderance of the evidence, to have been removed from a specific burial site of a Native American individual.

- Pursuant to 25 U.S.C. 3001(2), there is a relationship of shared group identity that can be reasonably traced between the unassociated funerary objects and the Ak-Chin Indian Community of the Maricopa (Ak Chin) Indian Reservation, Arizona; Gila River Indian Community of the Gila River Indian Reservation, Arizona; Hopi Tribe of Arizona; Salt River Pima-Maricopa Indian Community of the Salt River Reservation, Arizona; Tohono O'odham Nation of Arizona; and Zuni Tribe of the Zuni Reservation, New Mexico.

Additional Requestors and Disposition

Lineal descendants or representatives of any Indian tribe or Native Hawaiian organization not identified in this notice

that wish to claim these cultural items should submit a written request with information in support of the claim to Elaine Hughes, Museum of Northern Arizona, 3101 North Fort Valley Road, Flagstaff, AZ 86001, telephone (928) 774-5211 x228, email ehughes@musnaz.org, by June 2, 2017.

After that date, if no additional claimants have come forward, transfer of control of the unassociated funerary objects to the Ak-Chin Indian Community of the Maricopa (Ak Chin) Indian Reservation, Arizona; Gila River Indian Community of the Gila River Indian Reservation, Arizona; Hopi Tribe of Arizona; Salt River Pima-Maricopa Indian Community of the Salt River Reservation, Arizona; Tohono O'odham Nation of Arizona; and Zuni Tribe of the Zuni Reservation, New Mexico may proceed.

The Museum of Northern Arizona is responsible for notifying the Ak-Chin Indian Community of the Maricopa (Ak Chin) Indian Reservation, Arizona; Gila River Indian Community of the Gila River Indian Reservation, Arizona; Hopi Tribe of Arizona; Salt River Pima-Maricopa Indian Community of the Salt River Reservation, Arizona; Tohono O'odham Nation of Arizona; and Zuni Tribe of the Zuni Reservation, New Mexico that this notice has been published.
