Agency: U.S. Census Bureau.

Title: Current Industrial Reports (Wave II Mandatory).

Form Number(s): M311J, M311L, M313N, M313P, MQ314X, MQ315A, MQ333W, MA313F, MA313K, MA314Q, MA316A, MA321T, MA325G, MA333L, MA333P, MA334M, MA334Q, MA334S, MA335E, and MA335J.

Type of Request: Revision of a currently approved collection.

Burden: 16,954 hours.

Number of Respondents: 11,887.

Avg Hours Per Response: 1.43 hours.

Needs and Uses: The Census Bureau conducts a series of monthly, quarterly, and annual surveys as part of the Current Industrial Reports (CIR) program. The CIR program focuses primarily on the quantity and value of shipments of particular products and occasionally with data on production and inventories; unfilled orders, receipts, stocks and consumption; and comparative data on domestic production, exports, and imports of the products they cover. Government agencies, business firms, trade associations, and private research and consulting organizations use these data to make trade policy, production, and investment decisions.

Due to the large number of surveys conducted in the CIR program, for clearance purposes, the CIR surveys are divided into "waves." There are three waves and each wave contains a voluntary and mandatory clearance package, making 6 separate clearances. Each year, one wave (2 clearance packages) is submitted for review. In this request, we are discontinuing MA325B, "Inorganic Fertilizer Materials and Related Products," and MA325C, "Industrial Gases" due to budgetary reductions.

Affected Public: Business or other for-profit organizations.

Frequency: Quarterly.

Respondent's Obligation: Mandatory.
Legal Authority: Title 13, United States Code, Sections 61, 81, 182, 224, and 225.

OMB Desk Officer: Susan Schechter, (202) 395-5103.

Copies of the above information collection proposal can be obtained by calling or writing Madeleine Clayton, Departmental Paperwork Clearance Officer, (202) 482-3129, Department of Commerce, room 6086, 14th and Constitution Avenue, NW, Washington, DC 20230 (or via the Internet at mclayton@doc.gov).

Dated: July 6, 2001.

Submission for OMB Review; Comment Request

DOC has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: U.S. Census Bureau.

Title: 2002 Economic Census Ownership or Control Flier.

Form Number(s): NC-99510, NC-99520, NC-99521, NC-99530, NC-99542, NC-99550, NC-99553, NC-99554, NC-99557, NC-99562, NC-99563, NC-99572, NC-99581.

Agency Approval Number: None.

Type of Request: New collection.

Burden: 48,846 hours in FY 2003.

Number of Respondents: 2,442,300.

Avg Hours Per Response: 1.2 minutes.

Needs and Uses: Accurate and reliable industry and geographic codes are critical to the Census Bureau's economic statistical programs. As single-establishment firms are acquired or begin operating at additional locations, it is necessary to update the Bureau's Business Register (Standard Statistical Establishment Listing (SSEL). During the 2002 Economic Census, the Ownership Or Control fliers will be used to link establishments that are not single-establishment firms to their parent companies or create new multi-establishment firms when they operate

at more than one location. In prior censuses these questions were part of the economic census questionnaires and used to determine if single-establishment firms were either owned or controlled by another company or if they operate at more than one location. For the 2002 Economic Census we have removed these questions from economic census questionnaires and will include them on a separate flier that will only be inserted in economic census questionnaire mailout packages sent to single-establishment firms.

Affected Public: Businesses or other for-profit, individuals or households, not-for-profit institutions, State, local or Tribal government.

Frequency: Every five years.

Respondent's Obligation: Mandatory.

Legal Authority: Title 13 U.S.C., Sections 131 and 224.

OMB Desk Officer: Susan Schechter, (202) 395-5103.

Copies of the above information collection proposal can be obtained by calling or writing Madeleine Clayton, Departmental Paperwork Clearance Officer, (202) 482-3129, Department of Commerce, room 6086, 14th and Constitution Avenue, NW, Washington, DC 20230 (or via the Internet at mclayton@doc.gov).

Foreign-Trade Zones Board

[Docket 29-2001]

Foreign-Trade Zone 25—Broward County, Florida; Proposed Foreign-Trade Subzone, Motiva Enterprises LLC (Petroleum Product Storage), Broward County, Florida

An application has been submitted to the Foreign-Trade Zones Board (the Board) by Broward County, Florida, grantee of FTZ 25, requesting special-purpose subzone status for the petroleum product storage facility of Motiva Enterprises, LLC (Motiva), located in the Fort Lauderdale, Florida, area. The application was submitted

pursuant to the provisions of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a–81u), and the regulations of the Board (15 CFR part 400). It was formally filed on June 29, 2001.

The Motiva facility (34 acres) is located at 3 sites with connecting pipelines in Fort Lauderdale, Florida, (Broward County): *Site 1* (9 tanks, 550,000 barrel capacity, 18 acres)—South Terminal product storage facility is located at 1200 S.E. 28th Street; *Site 2* (15 tanks, 600,000 barrel capacity, 15 acres)—East Terminal product storage facility is located at 1500 S.E. 26th Street; *Site 3*—dock manifolds at berths 7, 9, and 13, Port Everglades, leased from Cliff Berry & Associates.

The storage facility is primarily used for the receipt, storage, blending and distribution of jet fuel by pipeline to the Miami and Fort Lauderdale International Airports. The company also uses the facility to store and distribute gasoline, diesel fuel, distillate fuels, and blending stocks. Some of the products are or will be sourced from abroad or from U.S. refineries under FTZ procedures.

The Motiva connecting pipelines are used for routing of petroleum products to the storage terminals from arriving vessels at the dock manifolds. The Motiva South and East Terminals have no direct connections with each other and product may be pumped between the two terminals through the Motiva pipeline connected through the dock manifolds.

Zone procedures would exempt Motiva from Customs duties and federal excise taxes on foreign status jet fuel used for international flights. On domestic sales, the company would be able to defer Customs duty payments until the products leave the facility. The application indicates that the savings from FTZ procedures would help improve the facility's international competitiveness.

No specific manufacturing request is being made at this time. Such a request would be made to the Board on a case-by-case basis.

In accordance with the Board's regulations, a member of the FTZ Staff has been designated examiner to investigate the application and report to the Board.

Public comment is invited from interested parties. Submissions (original and 3 copies) shall be addressed to the Board's Executive Secretary at the address below.

The closing period for their receipt is September 10, 2001. Rebuttal comments in response to material submitted during the foregoing period may be

submitted during the subsequent 15-day period (to September 24, 2001).

A copy of the application and accompanying exhibits will be available for public inspection at each of the following locations:
