When the deliverable consists of modifications to preexisting works, the license extends only to those modifications that can be separately identified and only to the extent that open licensing is permitted under the terms of any licenses or other legal restrictions on the use of preexisting works. Additionally, a grantee or subgrantee that is awarded competitive grant funds must have a plan to disseminate these public grant deliverables. This dissemination plan can be developed and submitted after your application has been reviewed and selected for funding. For additional information on the open licensing requirements please refer to 2 CFR 3474.20.

4. *Reporting:* (a) If you apply for a grant under this competition, you must ensure that you have in place the necessary processes and systems to comply with the reporting requirements in 2 CFR part 170 should you receive funding under the competition. This does not apply if you have an exception under 2 CFR 170.110(b).

(b) At the end of your project period, you must submit a final performance report, including financial information, as directed by the Secretary. If you receive a multiyear award, you must submit an annual performance report that provides the most current performance and financial expenditure information as directed by the Secretary under 34 CFR 75.118. 6. *Continuation Awards:* In making a continuation award under 34 CFR 75.253, the Secretary considers, among other things, whether a grantee has made substantial progress in achieving the goals and objectives of the project; whether the grantee has expended funds in a manner that is consistent with its approved application and budget; and, if the Secretary has established performance measurement requirements, whether the grantee has made substantial progress in achieving the performance targets in the grantee's approved application.

In making a continuation award, the Secretary also considers whether the grantee is operating in compliance with the assurances in its approved application, including those applicable to Federal civil rights laws that prohibit discrimination in programs or activities receiving Federal financial assistance from the Department (34 CFR 100.4, 104.5, 106.4, 108.8, and 110.23).

Title of Collection: 2024 Teaching and Learning International Survey (TALIS 2024) Main Study Recruitment and Field Test.

OMB Control Number: 1850-0888.

Type of Review: A reinstatement with change of a currently approved information collection.

Abstract: The Teaching and Learning International Survey (TALIS) is an international survey of teachers and principals focusing on the working conditions of teachers and the teaching and learning practices in schools. The United States will administer TALIS for the third time in 2024, having participated in 2013 and 2018. TALIS 2024 is sponsored by the Organization for Economic Cooperation and Development (OECD). TALIS is steered by the TALIS Governing Board (TGB), comprising representatives from the OECD member countries, and implemented internationally by organizations contracted by the OECD (referred to as the "international consortium" or "IC"). In the U.S.,

TALIS 2024 is conducted by the National Center for Education Statistics (NCES) of the Institute of Education Sciences, U.S. Department of Education.

TALIS 2024 is focused on teachers' professional environment, teaching conditions, and their impact on school and teacher effectiveness. TALIS 2024 will address teacher training and professional development, teacher appraisal, school climate, school leadership, instructional approaches, pedagogical practices, and teaching experience with and support for teaching diverse populations.

OECD has scheduled the main study to occur in the Northern hemisphere from February through March 2024 and in the Southern hemisphere from June through August 2024. To prepare for the main study, several TALIS countries will conduct pilot studies in February 2022; the U.S. will not participate. Countries will also conduct a field test in the first quarter of 2023, primarily to evaluate newly developed questionnaire items and school recruitment materials; the U.S. will participate in the field test. To meet the international data collection schedule for the field test, U.S. recruitment activities need to begin by August 2022 and U.S. questionnaires must be finalized by December 2022.

TALIS 2024 includes the core TALIS teacher and principal surveys that are required for each participating country, as well as an optional Teacher Knowledge Survey (TKS). The TKS is intended to better understand the teacher pedagogical knowledge base at the national level. The US is including the TKS in the upcoming TALIS 2024 field test and will evaluate these results to determine the feasibility of including TKS as part of the US Main Study.

This submission requests approval for: Recruitment and pre-survey activities for the 2023 field test sample; administration of the field test; and school recruitment and pre-survey activities for the 2024 main study sample. The materials that will be used in the 2024 main study will be based upon the field test materials included in this submission. Additionally, this submission is designed to adequately justify the need for and overall practical utility of the full study and to present the overarching plan for all phases of the data collection, providing as much detail about the measures to be used as is available at the time of this submission. As part of this submission, NCES is publishing a notice in the **Federal Register** allowing first a 60- and then a 30-day public comment period. For the final proposal for the full study, after the field test NCES will publish a notice in the **Federal Register** allowing

an additional 30-day public comment period on the final details of the 2024 main study.

Dated: March 8, 2022.

Stephanie Valentine,
PRA Coordinator, Strategic Collections and Clearance, Governance and Strategy Division, Office of Chief Data Officer, Office of Planning, Evaluation and Policy Development.
