### Food and Nutrition Service

*Title:* School Lunch and Breakfast Cost Study-II.

*OMB Control Number:* 0584-NEW.

*Summary of Collection:* In light of all of the changes that have taken place in school food service and school finance over the past 12 years, there is a critical need for updated information on the adequacy of Federal meal reimbursement rates. There is an important need to understand the current cost and revenue structure of School Food Authorities (SFAs). Rising labor costs, food costs, and tighter school district budgets may have changed the way in which school meals are produced. The School Lunch and Breakfast Cost Study-II will collect and analyze data from a nationally representative sample of public schools participating in the National School Lunch Program (NSLP). Data will be collected so as to provide sufficient information on school meal production costs to assess the adequacy of Federal meal reimbursement rates.

*Need and Use of the Information:* The collected information from the study will be used to determine the national average reported and full costs to produce NSLP and School Breakfast Program (SBP) reimbursable meals, the extent to which indirect costs are charged to SFA accounts for food service operations, the value of administrative costs used to produce reimbursable NSLP and SBP meals, and the composition of SFA revenues, including federal reimbursements, cafeteria sales and State and local cash assistance in comparison to costs.

*Description of Respondents:* State, Local or Tribal Government.

*Number of Respondents:* 904.

*Frequency of Responses:* Reporting: Other (one-time).

*Total Burden Hours:* 2,874.
