

E. Unfunded Mandates Reform Act

This rule does not impose an unfunded mandate on State, local, or tribal governments, or the private sector of more than \$100 million per year. The rule does not have a significant or unique effect on State, local, or tribal governments or the private sector. Therefore, a statement containing the information required by the Unfunded Mandates Reform Act (2 U.S.C. 1531 *et seq.*) is not required.

F. Takings (E.O. 12630)

This rule does not effect a taking of private property or otherwise have takings implications under E.O. 12630. Therefore, a takings implication assessment is not required.

G. Federalism (E.O. 13132)

Under the criteria in section 1 of E.O. 13132, this rule does not have sufficient federalism implications to warrant the preparation of a federalism summary impact statement. Therefore, a federalism summary impact statement is not required.

H. Civil Justice Reform (E.O. 12988)

This rule complies with the requirements of E.O. 12988. Specifically, this rule:

- (a) Meets the criteria of section 3(a) requiring that all regulations be reviewed to eliminate errors and ambiguity and be written to minimize litigation; and
- (b) Meets the criteria of section 3(b)(2) requiring that all regulations be written in clear language and contain clear legal standards.

I. Consultation With Indian Tribes (E.O. 13175 and Departmental Policy)

The Department of the Interior strives to strengthen its government-to-government relationship with Indian tribes through a commitment to consultation with Indian tribes and recognition of their right to self-governance and tribal sovereignty. We have evaluated this rule under the Department's consultation policy and under the criteria in E.O. 13175 and have determined that it has no substantial direct effects on federally recognized Indian tribes and that consultation under the Department's tribal consultation policy is not required.

J. Paperwork Reduction Act

This rule does not contain information collection requirements, and a submission to OMB under the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*) is not required. We may not conduct or sponsor, and you are not

required to respond to, a collection of information unless it displays a currently valid OMB control number.

K. National Environmental Policy Act

A detailed statement under the National Environmental Policy Act of 1969 (NEPA) is not required because, as a regulation of an administrative nature, the rule is covered by a categorical exclusion (*see* 43 CFR 46.210(i)). We have also determined that the rule does not involve any of the extraordinary circumstances listed in 43 CFR 46.215 that would require further analysis under NEPA.

L. Effects on the Energy Supply (E.O. 13211)

This rule is not a significant energy action under the definition in E.O. 13211. Therefore, a Statement of Energy Effects is not required.

[MB Docket No. 21–56; RM–11811; DA 21–595; FR ID 28830]

**Television Broadcasting Services
Jonesboro, Arkansas**

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: On February 12, 2021, the Media Bureau, Video Division (Bureau) issued a *Notice of Proposed Rulemaking* in response to a petition for rulemaking filed by Gray Television Licensee, LLC (Gray), the licensee of KAIT, channel 8 (ABC), Jonesboro, Arkansas, requesting the substitution of channel 27 for channel 8 at Jonesboro in the DTV Table of Allotments. For the reasons set forth in the *Report and Order* referenced below, the Bureau amends FCC regulations to substitute channel 27 for channel 8 at Jonesboro.

DATES: Effective June 9, 2021.

FOR FURTHER INFORMATION CONTACT: Joyce Bernstein, Media Bureau, at (202) 418–1647 or JoyceBernstein@fcc.gov.

SUPPLEMENTARY INFORMATION: The proposed rule was published at 86 FR 17110 on April 1, 2021. Gray filed comments in support of the petition reaffirming its commitment to apply for channel 20. No other comments were filed. Gray states that VHF channels have certain propagation characteristics which may cause reception issues for some viewers, and that the reception of VHF signals requires larger antennas relative to UHF channels. Moreover, many viewers are unable to receive KAIT's signal. Gray further states that while there is small terrain limited predicted loss area, the viewers will continue to be well served by at least five other stations and receive ABC

network service from WATN-TV, Memphis, Tennessee.

This is a synopsis of the Commission's *Report and Order*, MB Docket No. 21–56; RM–11811; DA 21–595, adopted May 20, 2021, and released May 20, 2021. This document does not contain information collection requirements subject to the Paperwork Reduction Act of 1995, Public Law 104–13. In addition, therefore, it does not contain any proposed information collection burden “for small business concerns with fewer than 25 employees,” pursuant to the Small Business Paperwork Relief Act of 2002, Public Law 107–198, *see* 44 U.S.C. 3506(c)(4). Provisions of the Regulatory Flexibility Act of 1980, 5 U.S.C. 601–612, do not apply to this proceeding.

The Commission will send a copy of this *Report and Order* in a report to be sent to Congress and the Government Accountability Office pursuant to the Congressional Review Act, *see* 5 U.S.C. 801(a)(1)(A).

SUPPLEMENTARY INFORMATION:

Background

The Pacific Coast Groundfish Fishery Management Plan (PCGFMP) and its implementing regulations at title 50 in the Code of Federal Regulations (CFR),

part 660, subparts C through G, regulate fishing for over 90 species of groundfish off the coasts of Washington, Oregon, and California. The Pacific Fishery Management Council (Council) develops groundfish harvest specifications and management measures for two-year periods (*i.e.*, a biennium). NMFS published the final rule to implement harvest specifications and management measures for the 2021–2022 biennium for most species managed under the PCGFMP on December 11, 2020 (85 FR 79880). NMFS also published a correction (85 FR 86853, December 31, 2020) and correcting amendments (86 FR 14379, March 16, 2021; 86 FR 27816, May 24, 2021) to implement the Council's recommendations for the 2021–2022 harvest specifications and management measures.

The management measures set at the start of the biennial harvest specifications cycle help the sectors of the fishery attain, but not exceed, the catch limits for each stock. The Council, in coordination with Pacific Coast Treaty Indian Tribes and the states of Washington, Oregon, and California, recommends adjustments to the management measures during the fishing year to achieve this goal. At the April 8–9 and 12–15, 2021, virtual meetings, the Council recommended adjusting the incidental retention allowance for lingcod in the salmon troll fishery north of 40°10' N lat.

Lingcod Retention in the Salmon Troll Fishery

The commercial fishery for salmon using trolled hook and line gear operates off Washington, Oregon, and California, usually beginning in the spring. This fishery is managed by NMFS and co-managers (states and the tribes) to harvest, but not exceed, salmon harvest targets that are set annually, based on the best available scientific information. Participants in the salmon troll fishery are not prohibited from fishing for salmon in areas that are closed to groundfish fishing, like the non-trawl Rockfish Conservation Area (RCA). Salmon trollers, however, when fishing in the RCA north of 40°10' N. lat., are prohibited from retaining groundfish with two exceptions; yellowtail rockfish and lingcod may be retained in limited quantities and subject to an incidental retention ratio of groundfish to Chinook salmon.

The 2021–2022 harvest specifications and management measures final rule, published on December 11, 2020 (85 FR 79880), maintained the existing
