[Project No. 459-243]

Union Electric Company, dba AmerenUE; Notice of Availability of Environmental Assessment

April 21, 2009.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR part 380 (Order No. 486, 52 FR 47897), the Office of Energy Projects has reviewed an application for non-project use of project lands and waters at the Osage Project (FERC No. 459) and has prepared an Environmental Assessment (EA) for the proposed non-project use. The non-project use of project lands and waters is located near mile marker 8.3+0.9 on Workman Hollow Cove on the Lake of the Ozarks, in Camden County, Missouri. The Osage Project is located in Benton, Camden, Miller, and Morgan counties, Missouri.

In the application, Union Electric Company, dba AmerenUE requests Commission approval to authorize Moonlight Properties, LLC to construct five multi-slip boat docks with 56 boat slips. The EA contains Commission staff's analysis of the probable environmental impacts of the proposal and concludes that approving the licensee's application, with staff's recommended environmental measures, would not constitute a major Federal action significantly affecting the quality of the human environment.

The EA is attached to a Commission order titled "Order Modifying and Approving Non-Project Use of Project Lands and Waters," which was issued April 21, 2009, and is available for review and reproduction at the Commission's Public Reference Room, located at 888 First Street, NE., Room 2A, Washington, DC 20426. The EA may also be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Enter the project number (prefaced by P-) and excluding the last three digits, in the docket number field to access the document.
