Title of Collection: Application for Flexibility for Equitable Per-pupil Funding.

OMB Control Number: 1810–NEW.

Type of Review: New collection (Request for a new OMB Control Number).

Respondents/Affected Public: State, Local and Tribal Governments.

Total Estimated Number of Annual Responses: 20.

Total Estimated Number of Annual Burden Hours: 1,120.

Abstract: This is a request for emergency clearance to collect critical information for the Application for Flexibility for Equitable Per-pupil Funding, the instrument through which local educational agencies (LEAs) apply for flexibility to consolidate eligible Federal funds and State and local education funding based on weighted per-pupil allocations for low-income and otherwise disadvantaged students. This program allows LEAs to consolidate funds under the Elementary and Secondary Education of 1965 Federal education programs.

These Federal education programs were reauthorized by the Elementary

and Secondary Education Act of 1965 (ESEA), as amended by the Every Student Succeeds Act (ESSA). The ESSA added a new program to the ESEA, the Flexibility for Equitable Per-pupil Funding under section 1501. This discretionary flexibility allows the U.S. Department of Education (Department) to offer an LEA the opportunity to consolidate funds under the above-listed programs to support the LEA in creating a single school funding system based on weighted per-pupil allocations for low-income and otherwise disadvantaged students, with attendant flexibility in using those funds. For the initial three-year period, the Department may approve this flexibility for up to 50 LEAs.

Given the priority of an orderly transition, the earliest available time to award flexibility related to the use of federal funding was School Year 2018–2019, which mostly takes place during FY 2019. This aligns with States' transition to "full" compliance, as all provisions of the law will be effective by FY 2019, including those that were otherwise delayed under orderly transition authority. This timeframe also aligns with the implementation of the other pilot program provided in ESSA, the Innovative Assessment Demonstration Authority (IADA).

Although an approximate timeframe was established, by necessity, the planning for a new and potentially far-reaching program could not begin in earnest until new political leadership had been appointed. This planning began in mid-2017 following the appointment of Secretary DeVos and other political leadership.

The scope of work for the development of the application was significant. The program is entirely new and involves broad authority for the Secretary to waive provisions of the ESEA, although only after a successful applicant meets several dozen precise and technical requirements related to the allocation, use and reporting of funds. Given that the program is new and highly technical, affects the use of federal funds, waives other federal requirements, and involves a potential applicant pool of thousands of school districts, the development of an application required significant legal and policy analysis, which lasted several months.

Lastly, between enactment of ESSA and the present date, there were also several major anticipated and unanticipated events, including a change in Presidential and Secretarial administration, Congressional action that eliminated certain implementing regulations of the law, and significant
