

following the merger of two entities. The forms and instructions also provide additional information on the need for, and use of, e-mail addresses from the filing entities. Other proposed changes to the forms and instructions would help respondents better determine how to report subject revenues and generally seek to provide respondents with an efficient, less burdensome information collection.

The revisions proposed will be minimal or have no effect on the burden associated with filing FCC Forms 499–A and 499–Q for respondents. The revisions proposed in this submission to OMB would go into effect January 31, 2007.

In addition, the 2006 FCC forms and instructions which already reflect the changes to the contribution methodology adopted in the 2006 Interim Contribution Methodology Order should remain in effect until the revised forms become effective January 31, 2007 and should continue to be available thereafter for filers to use in amending prior submissions. On July 27, 2006, the Commission received emergency approval of the information collection requirements in which the Commission made minor editorial corrections of typographical errors or omissions as well as other minor changes to ensure consistency between the forms and the instructions. OMB approval for emergency requests are only granted for six months, thus this collection's OMB approval will expire on 1/31/07. The Commission is now submitting this collection under OMB's regular procedures in order to obtain the full three year clearance from them.
