A. Background

KCHA, acting under its SEPA authority, and the King County DDES, acting under authority of section 104(g) of the Housing and Community Development Act of 1974 (42 U.S.C. 5304(g)) and HUD’s regulations at 24 CFR part 58, in cooperation with other interested agencies, will prepare an EIS to analyze potential impacts of redevelopment of the Park Lake Homes public housing community. This EIS will be a joint NEPA and Washington SEPA document intended to satisfy requirements of federal and state environmental statutes.

Park Lake Homes is KCHA’s oldest and largest public housing development. Built in 1942 to serve as temporary housing for World War II defense workers, structures have been renovated several times. The KCHA received a HOPE VI grant award from HUD in November 2001, to initiate planning for the revitalization of this public housing development.

The proposed project would involve redevelopment of the existing approximately 95-acre Park Lake Homes public housing community located in the White Center area of unincorporated King County, Washington. The proposed redevelopment is consistent with requirements for a mixed-use, mixed-income housing project as described in the HOPE VI grant. The project site currently contains 569 residential units, a community center, a maintenance shop, a Head Start School, and a secondary building containing a food bank and administrative offices. The residential units are in primarily single story duplex structures.

Many or all of the current buildings on the site are to be demolished in phases, unless renovation for community services use is feasible. The existing Jim Wiley Community Center Building will likely be renovated. In addition, much of the existing infrastructure would be demolished, abandoned, or replaced, also in phases. The site would be redeveloped to provide approximately 900 dwelling units including an estimated 500 units of rental housing and 400 units of for-sale housing. It is anticipated that the rental housing would include approximately 300 units of housing to serve households of very low income and approximately 200 units of
