

specified activity on marine mammals and their habitat, and taking into consideration the implementation of the mitigation and monitoring measures, NMFS finds that BLM's proposed activities would take small numbers of marine mammals relative to the populations of the affected species or stocks.

Impact on Availability of Affected Species or Stock for Taking for Subsistence Uses

There are no relevant subsistence uses of marine mammals implicated by this action. The proposed activity occurs south of the latitude that NMFS' categorizes as within Arctic waters (*i.e.*, north of 60° N). Therefore, NMFS has determined that the total taking of affected species or stocks would not have an unmitigable adverse impact on the availability of such species or stocks for taking for subsistence purposes.

Endangered Species Act (ESA)

For the reasons already described in this notice, NMFS has determined that the issuance of a proposed Authorization may have an effect on species or critical habitat protected under the ESA (specifically, the Steller sea lion). Under section 7 of the ESA, BLM has initiated formal consultation with the NMFS Alaska Regional Office on the proposed land survey. NMFS (*i.e.*, National Marine Fisheries Service, Office of Protected Resources, Permits and Conservation Division) also consulted internally with the NMFS Alaska Regional Office on the proposed issuance of an Authorization under section 101(a)(5)(D) of the MMPA.

In June, 2015, the NMFS Alaska Regional Office Protected Species Division issued a Biological Opinion with an Incidental Take Statement to us and to BLM which concluded that the issuance of the Authorization and the conduct of the land survey activities were not likely to jeopardize the continued existence of Steller sea lions. The Biological Opinion also concluded that the issuance of the Authorization and the conduct of the land survey activities would not affect designated critical habitat for Steller sea lions.

National Environmental Policy Act (NEPA)

NMFS prepared an Environmental Assessment (EA) analyzing the potential effects to the human environment from NMFS' issuance of a Authorization to BLM for their proposed land survey activities. In June 2015, NMFS issued a Finding of No Significant Impact (FONSI) on the issuance of an Authorization for BLM's proposed land

survey activities in accordance with section 6.01 of the NOAA Administrative Order 216-6 (Environmental Review Procedures for Implementing the National Environmental Policy Act, May 20, 1999). NMFS' EA and FONSI for this activity are available upon request (see ADDRESSES).

Authorization

As a result of these determinations, NMFS issued an Incidental Harassment Authorization to BLM for take incidental to conducting a one-day field-based land survey of cultural sites located on a small island within the eastern Aleutian Islands archipelago, during the period of June 1, 2015 through July 31, 2015, provided they incorporate the previously mentioned mitigation, monitoring, and reporting requirements.

Dated: June 10, 2015.
