II. Background

The Food Quality Protection Act, Public Law 104–170, was passed in 1996 to strengthen the nation's system for regulating pesticides on food. The Committee to Advise on Reassessment and Transition, CARAT, is preceded by the EPA-USDA Tolerance Reassessment Advisory Committee (TRAC). Its purpose is to provide advice and counsel to the Administrator of EPA and the Secretary of Agriculture regarding strategic approaches for pest management planning and tolerance reassessment for pesticides as required by FQPA. Through CARAT, EPA and USDA are working together to ensure smooth implementation of FQPA through use of sound science, consultation with stakeholders, increased transparency, and reasonable transition for agriculture.

EPA and USDA intend to appoint members to 1– or 2–year terms. An important consideration in the selection of members will be to maintain balance and diversity of experience and expertise. EPA also intends to seek broad geographic representation from the following sectors: Pesticide industry and trade associations, farmers, environmental/public interest groups, public health officials, pediatric experts, food processors and distributors, academicians, and tribal, state and local government officials.

Copies of the CARAT Charter are filed with appropriate committees of Congress and the Library of Congress and are available upon request.

Availability of EPA comments prepared pursuant to the Environmental Review Process (ERP), under Section 309 of the Clean Air Act and Section 102(2)(c) of the National Environmental Policy Act as amended. Requests for copies of EPA comments can be directed to the Office of Federal Activities at (202) 564-7167. An explanation of the ratings assigned to draft environmental impact statements (EISs) was published in the **Federal Register** dated April 2, 2004 (69 FR 17403).

Draft EISs
