New England Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of a public meeting.

SUMMARY: The New England Fishery Management Council (Council) is scheduling a public joint meeting of its Habitat Advisory Panel via webinar to consider actions affecting New England fisheries in the exclusive economic zone (EEZ). Recommendations from this group will be brought to the full Council for formal consideration and action, if appropriate.

DATES: This meeting will be held on Tuesday, May 24, 2022, at 1 p.m. Webinar registration URL information: <https://attendee.gotowebinar.com/register/6837593855468696331>.

ADDRESSES: *Council address:* New England Fishery Management Council, 50 Water Street, Mill 2, Newburyport, MA 01950.

FOR FURTHER INFORMATION CONTACT: Thomas A. Nies, Executive Director, New England Fishery Management Council; telephone: (978) 465-0492.

SUPPLEMENTARY INFORMATION:

Agenda

The Advisory Panel will discuss Essential Fish Habitat Consultation process, including the Council's role and recent projects. They will also

discuss Council action considering designation of a Habitat Area of Particular Concern in Southern New England, including objectives, range of alternatives, and supporting information and potentially recommend preferred alternatives to the Habitat Committee. Other business may be discussed as necessary.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take final action to address the emergency.

Special Accommodations

This meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Thomas A. Nies, Executive Director, at (978) 465-0492, at least 5 days prior to the date. This meeting will be recorded. Consistent with 16 U.S.C. 1852, a copy of the recording is available upon request.

North Pacific Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of web conference.

SUMMARY: The North Pacific Fishery Management Council (Council) Pacific Northwest Crab Industry Advisory Committee (PNCIAC) will meet May 25, 2022.

DATES: The meeting will be held on Wednesday, May 25, 2022, from 9 a.m. to 11 a.m., Alaska Time.

ADDRESSES: The meeting will be a web conference. Join online through the link

at <https://meetings.npfmc.org/Meeting/Details/2938>.

Council address: North Pacific Fishery Management Council, 1007 W 3rd Ave., Anchorage, AK 99501-2252; telephone: (907) 271-2809. Instructions for attending the meeting via video conference are given under

SUPPLEMENTARY INFORMATION, below.

FOR FURTHER INFORMATION CONTACT:

Sarah Marrinan, Council staff; phone: (907) 271-2809; email: sarah.marrinan@noaa.gov. For technical support please contact our admin Council staff, email: npfmc.admin@noaa.gov.

SUPPLEMENTARY INFORMATION:

Agenda

Wednesday, May 25, 2022

The Committee will discuss: (a) Red king crab including voluntary measures; (b) opilio snow crab rebuilding; (c) Council process changes; and (d) other business. The agenda is subject to change, and the latest version will be posted <https://meetings.npfmc.org/Meeting/Details/2938> prior to the meeting, along with meeting materials.

Connection Information

You can attend the meeting online using a computer, tablet, or smart phone; or by phone only. Connection information will be posted online at: <https://meetings.npfmc.org/Meeting/Details/2938>.

Public Comment

Public comment letters will be accepted and should be submitted electronically to <https://meetings.npfmc.org/Meeting/Details/2938>.

Endangered and Threatened Species; Take of Anadromous Fish

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice, Permit Renewal of an Endangered Species Act (ESA) Section

10(a)1(A) scientific enhancement permit.

SUMMARY: Notice is hereby given that NMFS renewed Section 10(a)1(A) scientific enhancement Permit 20085–2R to Stillwater Sciences Inc. (Stillwater). Authorized activities within the permit are expected to affect and enhance the threatened South Central California Coast (SCCC) Distinct Population Segment (DPS) of steelhead (*Oncorhynchus mykiss*) through invasive species removal from a southern California watershed (Chorro Creek) in San Luis Obispo County, California.

ADDRESSES: The permit application, the permit, and other related documents are available for review by contacting the California Coastal Office, Section 10(a)1(A) permit coordinator for southern California (Matt McGoogan: phone: 562–980–4026 or email at: Matthew.McGoogan@noaa.gov). The application for Permit 20085–2R is also available for review at the Authorizations and Permits for Protected Species website: <https://apps.nmfs.noaa.gov/search/search.cfm>.

FOR FURTHER INFORMATION CONTACT: Matt McGoogan at 562–980–4026, or email: Matthew.McGoogan@noaa.gov.

SUPPLEMENTARY INFORMATION:

ESA-Listed Species Covered in This Notification

Threatened SCCC steelhead.

Authority

Scientific research and enhancement permits are issued in accordance with Section 10(a)(1)(A) of the ESA (16 U.S.C. 1531 *et seq.*) and regulations governing listed fish and wildlife permits (50 CFR 222–227). NMFS issues a Section 10(a)1(A) permit based on findings that the permit is (1) applied for in good faith, (2) would not operate to the disadvantage of the listed species which is the subject of the permit, and (3) consistent with the purposes and policies set forth in Section 2 of the ESA. Authority for take exemption of listed species is subject to conditions set forth in the permit.

Permit 20085–2R

A receipt of application notice for Permit 20085–2R was published in the **Federal Register** on August 20, 2021 (86 FR 46832), providing 30 days for public comment prior to permit processing. No comments were received. Permit 20085–2R was issued to Stillwater on October 20, 2021.

Permit 20085–2R authorizes take exemption of threatened SCCC

steelhead in association with enhancement activities involving the removal of Sacramento pikeminnow (*Ptychocheilus grandis*) from the Chorro Creek watershed in San Luis Obispo County, California. The primary objectives of this enhancement effort involve: (1) Determining the distribution, abundance, size, and age structures of both pikeminnow and steelhead in the watershed; (2) eliminating pikeminnow from the watershed; (3) developing a plan for long-term pikeminnow management in the watershed; and (4) documenting changes in steelhead abundance and distribution in response to pikeminnow removal. Proposed enhancement activities include: (1) Conducting snorkel surveys to assess abundance and distribution of pikeminnow and steelhead; (2) using backpack electrofishing equipment, seines, hook-and-line sampling, and spearfishing to capture pikeminnow; (3) measuring the weight and length of juvenile steelhead collected during sampling activities; (4) returning the collected steelhead alive and unharmed to Chorro Creek; and (5) humanely euthanizing and disposing pikeminnow.

Permit 20085–2R authorized field activities associated with the enhancement effort to begin on October 20, 2021 (the date the permit was issued), and ceases authorization of the subject activities when the permit expires on December 31, 2031. The annual take exemption of threatened SCCC steelhead that permit 20085–2R authorizes for the subject enhancement effort is as follows: (1) Non-lethal capture and release of up to 1,500 juvenile steelhead while electrofishing, (2) non-lethal capture and release of up to 150 juvenile steelhead while seining, (3) non-lethal capture and release up to 10 juvenile steelhead while hook-and-line fishing, and (4) non-lethal observation of up to 2,000 juvenile and 10 adult steelhead during instream snorkel surveys. The potential annual unintentional lethal take permit 20085–2R authorizes is up to 33 juvenile steelhead. No intentional lethal take of steelhead is authorized or expected as a result of these enhancement activities.

The subject scientific enhancement activities that Permit 20085–2R authorizes are expected to support steelhead recovery in the Chorro Creek watershed and are consistent with recommendations and objectives outlined in NMFS' South Central California Coast Steelhead Recovery Plan. See the application for Permit 20085–2R and issued Permit 20085–2R for greater details on the associated scientific enhancement activities and

related methodology authorized with this permit.

Dated: May 3, 2022.

Angela Somma,

Chief, Endangered Species Division, Office of Protected Resources, National Marine Fisheries Service.

Takes of Marine Mammals Incidental to Specified Activities; Taking Marine Mammals Incidental to Marine Site Characterization Surveys Off New Jersey by NextEra Energy Transmission MidAtlantic Holdings, LLC

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; proposed incidental harassment authorization; request for comments on proposed authorization and possible renewal.

SUMMARY: NMFS has received a request from NextEra Energy Transmission MidAtlantic Holdings, LLC (NEETMA) for authorization to take marine mammals incidental to high-resolution geophysical (HRG) site characterization surveys off the coast of New Jersey. Pursuant to the Marine Mammal Protection Act (MMPA), NMFS is requesting comments on its proposal to issue an incidental harassment authorization (IHA) to incidentally take marine mammals during the specified activities. NMFS is also requesting comments on a possible one-time, one-year Renewal that could be issued under certain circumstances and if all requirements are met, as described in Request for Public Comments at the end of this notice. NMFS will consider public comments prior to making any final decision on the issuance of the requested MMPA authorization and agency responses will be summarized in the final notice of our decision.

DATES: Comments and information must be received no later than June 8, 2022.

ADDRESSES: Comments should be addressed to Jolie Harrison, Chief, Permits and Conservation Division, Office of Protected Resources, National Marine Fisheries Service. Written comments should be submitted via email to ITP.Potlock@noaa.gov.
