

4. Job Corps Services Available in Each State, Puerto Rico, and the District of Columbia

In addition to the above three primary criteria with quantifiable data, DOL will also ensure that Job Corps services remain available in each state, Puerto Rico, and the District of Columbia. We believe it is in the best interests of Job Corps' target population to ensure that potential students have access to Job Corps in the geographic areas in which they reside. We intend to maintain at least one Job Corps center in each state, the Commonwealth of Puerto Rico, and the District of Columbia to ensure that training is aligned with local and regional labor market opportunities. The centers of Ottumwa, Milwaukee, Pinellas, Denison, Gulfport and New Orleans are not included for consideration. In each case, there is insufficient data to evaluate each center's performance over the full five-year period.

Additional Considerations

Subordinate to the primary selection criteria listed above, additional consideration may be given to Job Corps' commitment to diversity. Job Corps currently serves a diverse student population and remains committed to serving disadvantaged youth from all backgrounds. We may consider whether a center's closure would have a disproportionate impact on a certain subpopulation of students in making a final closure decision.

Timeline for Selecting Job Corps Centers for Closure

We will begin to implement the selection and closure process by Program Year 2013, following the legislatively mandated activities pertaining to center closure required by the WIA and as stipulated in the DOL/USDA Interagency Agreement. We estimate that it will take a minimum of six months to execute closure of a center. If a contract center is selected for closure, we anticipate that the mechanism for closing the contract center will be through a decision not to exercise its option year or to renew a center operator's contract. If a USDA center is selected for closure, we will continue working collaboratively with the USDA to ensure adherence to the existing Interagency Agreement.

The Process for Closing Job Corps Centers, as Outlined in the Workforce Investment Act

In addition to the steps outlined above, we will ensure that it follows the legislatively-mandated process for closing a Job Corps center, in Section

159 of the WIA, which includes the following:

- The proposed decision to close the center is announced in advance to the general public through publication in the **Federal Register** or other appropriate means;
- A reasonable comment period, not to exceed 30 days, is established for interested individuals to submit written comments to the Secretary; and
- The Member of Congress who represents the district in which such center is located is notified within a reasonable period of time in advance of any final decision to close the center.
