

templates and self-contained code modules for rapid development and ease of modification. A downloadable version will also be available for respondents who prefer a paper version that they can mail or fax to the external contractor.

Use of the Information: This information is required for effective program planning, administration, communication, program and project monitoring and evaluation, and for measuring attainment of NSF's program, project and strategic goals, as required by the President's Management agenda as represented by the Office of Management and Budget's (OMB) Program Assessment Rating Tool (PART); the Deficit Reduction Act of 2005 (Pub. L. 109-171) which established the Academic Competitiveness Council (ACC) and the NSF's Strategic Plan. The Foundation's FY 2006-2011 Strategic Plan describes four strategic outcome goals of Discovery, Learning, Research Infrastructure, and Stewardship. NSF's complete strategic plan may be found at: http://www.nsf.gov/publications/pub_summ.jsp?ods_key=nsf0648.

2. Expected Respondents

Individuals or households, not-for-profit institutions, business or other for profit, and Federal, State, local or tribal government. The expected respondents are principal investigators of all partnership and RETA projects; STEM and education faculty members and administrators who participated in MSP; school districts and IHEs that are partners in an MSP project; and teachers participating in Institute Partnerships.

3. Burden on the Public

Number of Respondents: 2,348.

Burden on the Public: The total estimate for this collection is 52,082 annual burden hours.

This figure is based upon the previous 3 years of collecting information under this clearance and anticipated collections. The average annual reporting burden is estimated to be between 2 and 22 hours per respondent depending on whether a respondent is a direct participant who is self-reporting or representing a project and reporting on behalf of many project participants. The majority of respondents (60%) are estimated to require fewer than two hours to complete the survey. The burden on the public is negligible because the study is limited to project participants that have received funding from the MSP Program.

Dated: March 11, 2008.

Suzanne H. Plimpton,

Reports Clearance Officer, National Science Foundation.

BILLING CODE 7555-01-P

NATIONAL SCIENCE FOUNDATION

Notice of Permit Applications Received Under the Antarctic Conservation Act of 1978 (Pub. L. 95-541)

AGENCY: National Science Foundation.

ACTION: Notice of Permit Applications Received Under the Antarctic Conservation Act of 1978, Public Law 95-541.

SUMMARY: The National Science Foundation (NSF) is required to publish notice of permit applications received to conduct activities regulated under the Antarctic Conservation Act of 1978. NSF has published regulations under the Antarctic Conservation Act at Title 45 Part 670 of the Code of Federal Regulations. This is the required notice of permit applications received.

DATES: Interested parties are invited to submit written data, comments, or views with respect to this permit application by April 16, 2008. This application may be inspected by interested parties at the Permit Office, address below.

ADDRESSES: Comments should be addressed to Permit Office, Room 755, Office of Polar Programs, National Science Foundation, 4201 Wilson Boulevard, Arlington, Virginia 22230.

FOR FURTHER INFORMATION CONTACT: Nadene G. Kennedy at the above address or (703) 292-7405.

SUPPLEMENTARY INFORMATION: The National Science Foundation, as directed by the Antarctic Conservation Act of 1978 (Pub. L. 95-541), as amended by the Antarctic Science, Tourism and Conservation Act of 1996, has developed regulations for the establishment of a permit system for various activities in Antarctica and designation of certain animals and certain geographic areas requiring special protection. The regulations establish such a permit system to designate Antarctic Specially Protected Areas.

The applications received are as follows:

1. *Applicant:* H. William Detrich, III, Department of Biology, 134 Mugar Hall, Northeastern University, Boston, MA 02067. Permit Application No. 2009-001.

Activity for Which Permit Is Requested

Introduce non-indigenous species. The applicant plans to use *E. coli* bacteria for the production of ^{35}S -labeled proteins to be used in protein assays performed in the Palmer Station laboratories. The focus of the research is the reconstitution of a cold-functioning chaperonin protein folding system from testis tissue of the Antarctic fish *Notothenia coriiceps*. In order to demonstrate that the chaperonin is functional, protein substrates labeled with ^{35}S -methionine must be used. To obtain these proteins they need to express *N. coriiceps* actin and tubulin substrates in *E. coli* in a medium supplemented with ^{35}S -methionine. Cultures will be autoclaved to kill the bacteria and the waste will be disposed using approved protocols.

Location: Palmer Station, Anvers Island, Antarctic Peninsula.

Dates: April 27, 2008 to July 4, 2008.

Nadene G. Kennedy,

Permit Officer, Office of Polar Programs.

BILLING CODE 7555-01-P

NUCLEAR REGULATORY COMMISSION

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: U.S. Nuclear Regulatory Commission (NRC).

ACTION: Notice of pending NRC action to submit an information collection request to the Office of Management and Budget (OMB) and solicitation of public comment.

SUMMARY: The NRC is preparing a submittal to OMB for review of continued approval of information collections under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35).

1. *The title of the information collection:* 48 CFR 20, U.S. Nuclear Regulatory Commission Acquisition Regulation (NRCAR).

2. *Current OMB control number:* 3150-0169.

3. *How often the collection is required:* on occasion; one time.

4. *Who is required or asked to respond:* There are 355 potential contractors who could respond to NRC solicitations.

5. *The number of annual responses:* 3,482 annually from 355 respondents.

6. *The number of hours needed annually to complete the requirement or request:* There is both a reporting and
